"Hollywood Eden brings the lost humanity of the record business vividly back to life ... [Selvin's] style is blunt, unpretentious and brisk; he knows how to move things along entertainingly ... Songs about surfboards and convertibles had turned quaint, but in this book, their coolness is restored." — New York Times From surf music to hot-rod records to the sunny pop of the Beach Boys, Jan & Dean, the Byrds, and the Mama's & the Papa's, Hollywood Eden captures the fresh blossom of a young generation who came together in the epic spring of the 1960s to invent the myth of the California Paradise. Central to the story is a group of sun-kissed teens from the University High School class of 1959 — a class that included Jan & Dean, Nancy Sinatra, and future members of the Beach Boys — who came of age in Los Angeles at the dawn of a new golden era when anything seemed possible. These were the people who invented the idea of modern California for the rest of the world. But their own private struggles belied the paradise portrayed in their music. What began as a light-hearted frolic under sunny skies ended up crashing down to earth just a few short but action-packed years later as, one by one, each met their destinies head-on. A rock 'n' roll opera loaded with violence, deceit, intrigue, low comedy,

and high drama, Hollywood Eden tells the story of a group of young artists and musicians who bumped heads, crashed cars, and ultimately flew too close to the sun.

But in this inspiring field guide to dropping out of the attention economy, artist and critic Jenny Odell shows us how we can still win back our lives. Odell sees our attention as the most precious—and overdrawn—resource we have. And we must actively and continuously choose how we use it. We might not spend it on things that capitalism has deemed important ... but once we can start paying a new kind of attention, she writes, we can undertake bolder forms of political action, reimagine humankind's role in the environment, and arrive at more meaningful understandings of happiness and progress. Far from the simple anti-technology screed, or the back-to-nature meditation we read so often, How to do Nothing is an action plan for thinking outside of capitalist narratives of efficiency and techno-determinism. Provocative, timely, and utterly persuasive, this book will change how you see your place in our world.

Latinos across the United States are redefining identities, pushing boundaries, and awakening politically in powerful and surprising ways. Many—Afrolatino, indigenous, Muslim, queer and undocumented, living in large cities and small towns—are voices who have been chronically overlooked in how the diverse population of almost sixty million Latinos in the U.S. has been represented. No longer. In this empowering cross-country travelogue, journalist and activist Paola Ramos embarks on a journey to find the communities of people defining the controversial term, “Latinx.” She introduces us to the indigenous Oaxacans who rebuilt the main street in a post-industrial town in upstate New York, the “Las Poderosas” who fight for reproductive rights in Texas, the musicians in Milwaukee whose beats reassure others of their belonging, as well as drag queens, environmental activists, farmworkers, and the migrants detained at our border. Drawing on intensive field research as well as her own personal story, Ramos chronicles how “Latinx” has given rise to a sense of collectivity and solidarity among Latinos unseen in this country for decades. A vital and inspiring work of reportage, Finding Latinx calls on all of us to expand our understanding of what it means to be Latino and what it means to be American. The first step towards change, writes Ramos, is for us to recognize who we are.

Los Angeles in the 1960s gave the world some of the greatest music in rock 'n' roll history: "California Dreamin'" by the Mamas and the Papas, "Mr. Tambourine Man" by the Byrds, and "Good Vibrations" by the Beach Boys, a song that magnificently summarized the joy and beauty of the era in three-and-a-half minutes. But there was a dark flip side to the fun fun fun of the music, a nexus between naïve young musicians and the fringe elements that exploited the decade's peace-love-and-flowers ethos, all fueled by sex, drugs, and overnight success. One surf music superstar unwittingly subsidized the kidnapping of Frank Sinatra Jr. The transplanted Texas singer Bobby Fuller might have been murdered by the Mob in what is still an unsolved case. And after hearing Charlie Manson sing, Neil Young recommended him to the president of Warner Bros. Records. Manson's ultimate rejection by the music industry likely led to the infamous murders that shocked a nation. Everybody Had an Ocean chronicles the migration of the rock 'n' roll business to Southern California and how the artists flourished there. The cast of characters is astonishing—Brian and Dennis Wilson of the Beach Boys, Jan and Dean, eccentric producer Phil Spector, Cass Elliot, Sam Cooke, Ike and Tina Turner, Joni Mitchell, and scores of others—and their stories form a modern epic of the battles between innocence and cynicism and joy and terror. You'll never hear that beautiful music in quite the same way.

On January 2, 1972, Mark Arax's childhood came to a sudden, explosive end when his father was shot to death at his nightclub in Fresno, California. It was one of the most sensational murders in California's heartland, and it was never solved. Mark, only fifteen years old at the time, was left with a legacy of questions: Were the rumors about his father true? Had he led a double life? Was he killed because of his dealings with the underworld? Mark Arax, an award-winning journalist at the Los Angeles Times, now writes a searing, intensely personal account of his twenty-two-year search for answers about his father's life and death, and his own identity. As the oldest child, Mark was thrust into the role of patriarch. His quest for answers began in high school, when he sought out his father's father, an Armenian immigrant. His grandfather opened a window into an old country world full of promise and heartbreak -- and four generations of eccentric family members. Two decades later, Mark uprooted his wife and baby and returned to Fresno under an assumed name to try and determine who killed his father and why. Fearing for his own life, he discovers his father was murdered just before he was going to make a startling disclosure. More than a true-life murder mystery, more than an exploration of family and culture, In My

Father's Name is the poignant story of one man's remarkable journey as he uncovers long-hidden secrets about his father, his family, his heritage, and the town he once called home.
