the hardships  
of the frontier.  
The story  
opens in 1858,  
when Tobias  
and Emma  
MacIvey arrive  
in the Florida  
wilderness  
with their son,  
Zech, to start  
a new life, and  
ends in 1968  
with Solomon

Maclvey, who realizes that his wealth has not been worth the cost to the land. Between is a sweeping story rich in Florida history with a cast of memorable characters who battle wild animals, rustlers, Confederate deserters, mosquitoes, starvation, hurricanes, and freezes to carve a kingdom out of the Florida swamp. In this volume, meet young Zech Maclvey, who learns to ride like the wind through the

Florida scrub on Ishmael, his marshtackie horse, his dogs, Nip and Tuck, at this side. His parents, Tobias and Emma, scratch a living from the land, gathering wild cows from the swamp and herding them across the state to market. Hidden at the crossroads of the world, an ancient race battles to protect humanity, even as it dies from within. To the outside world, Ava Matheson is a successful travel photographer from a privileged background. But Ava's spent a lifetime battling voices in her mind she can't understand, and her fractured family has convinced her

she'll never belong. Malachi is an Irin scribe, descended from an angelic race and sworn by blood and magic to defend humanity from the Grigori, the sons of fallen angels who could ravage the world. A chance meeting in Istanbul will change both Ava and Malachi's destinies forever. Their attraction should be impossible, but it could also be the only thing that

will keep them alive. The Scribe is the first book in the Irin Chronicles, a contemporary fantasy series by Elizabeth Hunter, seven-time USA Today bestselling author of the Elemental Legacy. Loved this book! It had great intrigue and romance. It was sexy, well-written and suspenseful. ...I was gripped from the very beginning, enticed by adventures in faraway places.

"Sterling's rich, magical world dazzles readers with its fantastic intricacies."  
—Richelle Mead, #1 international bestselling author of Vampire Academy and The Glittering Court series  
Hannah's a witch, but not the kind you're thinking of. She's the real deal, an Elemental with the power to control fire,

earth, water, and air. But even though she lives in Salem, Massachusetts, her magic is a secret she has to keep to herself. If she's ever caught using it in front of a Reg (non-witch), she could lose it. For good. So, Hannah spends most of her time avoiding her ex-girlfriend (and fellow Elemental Witch) Veronica, hanging out with her best friend, and working at the Fly by Night Cauldron

selling candles and crystals to tourists, goths, and local Wiccans. But when a terrifying blood ritual interrupts the end-of-school-year bonfire and evidence of dark magic begins to appear all over Salem, Hannah's sure it's the work of a deadly Blood Witch. However her coven seems less than convinced, forcing Hannah to team up with the last person she wants to see: Veronica. With everything

she loves on the line, Hannah will have to test the limits of her power if she's going to save her coven. "Infused with page-turning suspense, bittersweet romance, shocking twists, and tragic turns, Sterling has written a standout debut." —Dana Mele, author of *People Like Us* [The Burn of a Thousand Suns](#) Dreamspinner Press If you want to understand how our world

works, the periodic table holds the answers. When the seventh row of the periodic table of elements was completed in June 2016 with the addition of four final elements—nihonium, moscovium, tennessine, and oganesson—we at last could identify all the ingredients necessary to construct our world. In *Elemental*, chemist and science educator Tim James provides an

informative, entertaining, and quirkily illustrated guide to the table that shows clearly how this abstract and seemingly jumbled graphic is relevant to our day-to-day lives. James tells the story of the periodic table from its ancient Greek roots, when you could count the number of elements humans were aware of on one hand, to the modern alchemists of the twentieth and twenty-first centuries

who have used nuclear chemistry and physics to generate new elements and complete the periodic table. In addition to this, he answers questions such as: What is the chemical symbol for a human? What would happen if all of the elements were mixed together? Which liquid can teleport through walls? Why is the medieval dream of transmuting lead into gold now a reality? Wheth

er you're studying the periodic table for the first time or are simply interested in the fundamental building blocks of the universe—from the core of the sun to the networks in your brain—Elemental is the perfect guide.

A page-turning novel that is also an exploration of the great philosophical concepts of Western thought, Jostein Gaarder's *Sophie's World* has fired the imagination of readers all over the world, with more than twenty million copies in print. One day fourteen-year-old Sophie Amundsen comes home from school to find in her mailbox two notes, with one question on each: "Who are you?" and

"Where does the world come from?" From that irresistible beginning, Sophie becomes obsessed with questions that take her far beyond what she knows of her Norwegian village. Through those letters, she enrolls in a kind of correspondence course, covering Socrates to Sartre, with a mysterious philosopher, while receiving letters addressed to another girl. Who is Hilde?

And why does her mail keep turning up? To unravel this riddle, Sophie must use the philosophy she is learning—but the truth turns out to be far more complicated than she could have imagined. *The Cult of Smart* Independently Published The New York Times bestselling author of *Cover of Night* returns to her Western Ladies series with this passionate and suspenseful

romance between a doctor and an outlaw. Annie Parker came to Silver Mesa, Arizona, because it was the only place she'd found where folks thought a woman doctor was better than no doctor at all. Her lonely life became harder still on the winter night Rafe McCay broke into her office with a bullet in his side and a bounty hunter at his back. With a gun aimed at her heart, he led her deep into the Arizona

mountains, and into a world of danger and passion, for Annie discovered in Rafe not only a wounded man, but a soul betrayed. Rafe, healed by her skill and the magic in her hands, awakened in Annie a woman's tender longing and hungry desire. Pursued by dangerous secrets of the past, they are swept into a thrilling odyssey of the heart—a bold, exhilarating journey that rekindles

Rafe's lost hope and transforms Annie's healing gift into a deep, enduring love. These Witches Don't Burn Farrar, Straus and Giroux "One of fantasy's best series." —Booklist, starred review Game of Thrones meets Fourth Wing in a debut young adult fantasy that's full of rivalry, romance . . . and dragons. Annie and Lee were just children when a brutal revolution changed their

world, giving everyone-- even the lowborn--a chance to test into the governing class of dragonriders. Now they are both rising stars in the new regime, despite backgrounds that couldn't be more different. Annie's lowborn family was executed by dragonfire, while Lee's aristocratic family was murdered by revolutionaries. Growing up in the same orphanage forged their friendship,

and seven years of training have made them rivals for the top position in the dragonriding fleet. But everything changes when survivors from the old regime surface, bent on reclaiming the city. With war on the horizon and his relationship with Annie changing fast, Lee must choose to kill the only family he has left or to betray everything he's come to believe in. And Annie must

decide whether to protect the boy she loves . . . or step up to be the champion her city needs.  Named one of *Vulture's* Top 10 Best Books of 2020!  
 Leftist firebrand Fredrik deBoer exposes the lie at the heart of our educational

system and demands top-to-bottom reform. Everyone agrees that education is the key to creating a more just and equal world, and that our schools are broken and failing. Proposed reforms variously target incompetent teachers, corrupt union practices, or outdated curricula, but no one acknowledges a scientifically-proven fact that we all understand

intuitively: Academic potential varies between individuals, and cannot be dramatically improved. In *The Cult of Smart*, educator and outspoken leftist Fredrik deBoer exposes this omission as the central flaw of our entire society, which has created and perpetuated an unjust class structure based on intellectual ability. Since cognitive talent varies from person to person, our

education system can never create equal opportunity for all. Instead, it teaches our children that hierarchy and competition are natural, and that human value should be based on intelligence. These ideas are counter to everything that the left believes, but until they acknowledge the existence of individual cognitive differences, progressives remain complicit in keeping the

status quo in place. This passionate, voice-driven manifesto demands that we embrace a new goal for education: equality of outcomes. We must create a world that has a place for everyone, not just the academically talented. But we'll never achieve this dream until the Cult of Smart is destroyed.

Listen! For I sing of Owen Thorskard: valiant of heart, hopeless at algebra, last in a long line of legendary dragon slayers. Though he had few years and was not built for football, he stood between the town of Trondheim and creatures that threatened its survival. There have always been dragons. As far back as history is told, men and women have fought them, loyally defending

their villages. Dragon slaying was a proud tradition. But dragons and humans have one thing in common: an insatiable appetite for fossil fuels. From the moment Henry Ford hired his first dragon slayer, no small town was safe.	Dragon slayers flocked to cities, leaving more remote areas unprotected. Such was Trondheim's fate until Owen Thorskard arrived. At sixteen, with dragons advancing and his grades plummeting,	Owen faced impossible odds—armed only with a sword, his legacy, and the classmate who agreed to be his bard. Listen! I am Siobhan McQuaid. I alone know the story of Owen, the story that changes everything. Listen!
