Eat healthy. Exercise. Be happy. It sounds easy enough, so why is it so difficult? Because as millions of women know, it's not easy. There are challenges and obstacles, and health programs are not one size fits all. Sohee Lee understands, because she's faced the challenges and overcome them. As a trainer, presenter, and author, she's shared her experiences and helped others establish healthy relationships with food and exercise for long-term results. In the book Eat. Lift. Thrive. she empowers you with tools and strategies to make your own change. You will learn how to identify issues that are holding you back and what you can do to get back on track. You'll find motivation, exercise, and advice. And you'll learn how to • incorporate Lee's Living Lean Guidelines to make your diet work around your life, rather than the other way around; • perform her Primary Strength Movements and integrate them into an effective workout program; and • adjust your routine to maintain the results you've achieved. Eat. Lift. Thrive. also provides you with a structured, easy-to-follow 12-week training program. The program can be scaled according to your training experience, time commitment, and goals; it's completely customizable to ensure that your changes are lasting. This book is designed to be different. By the time you're finished, you'll be an expert at moderation and will say goodbye to extremes in dieting. You can have your cake and eat it too—and enjoy it!

In one of his most ambitious physical efforts to date, Dean Karnazes attempted to run 50 marathons, in 50 states, in 50 days to raise awareness of youth obesity and urge Americans of all fitness levels to "take that next step." "UltraMarathon Man: 50 Marathons - 50 States - 50 Days", a Journeyfilm documentary, follows Dean's incredible step-by-step journey across the country. Ultrarunning legend Dean Karnazes has run 262 miles--the equivalent of ten marathons--without rest. He has run over mountains, across Death Valley, and to the South Pole--and is probably the first person to eat an entire pizza while running. With an insight, candor, and humor rarely seen in sports memoirs (and written without the aid of a ghostwriter or cowriter), Ultramarathon Man has inspired tens of thousands of people--nonrunners and runners alike--to push themselves beyond their comfort zones and be reminded of "what it feels like to be truly alive," says Sam Fussell, author of *Muscle*. Ultramarathon Man answers the questions Karnazes is continually asked: - Why do you do it? - How do you do it? - Are you insane? And in the new paperback edition, Karnazes answers the two questions he was most asked on his book tour: - What, exactly, do you eat? - How do you train to stay in such good shape?
