Meneghello's
Deliver Us is
the memoir,
not of an
extraordinary
childhood, but
of the very

ordinary one
the author
shared with
most of his
generation,
when Italy
was a rural
country under
the twin
authorities of
Church and
Fascism. His
boyhood
begins in
1922, the year
of Mussolini's
March on
Rome, and
ends when
Meneghello,
21, goes up
into the hills
to join the
partisans.
Called a
romanzo—a
story,
although not a
novel, as that
term usually
suggests—the
book is a

genre all of its
own that
mixes
personal and
collective
memory,
amateur
ethnography,
and
reflections on
language.
Meneghello's
sharp insights
and narrative
skill come
together in an
original
meditation on
how words,
people,
places, and
things shape
thought itself.
Only loosely
chronological,
Deliver Us
proceeds by
themes—child
hood games,
Fascist
symbols,
religious

precepts, and the rites of poverty, of death, of eros, and of love. Meneghello's ironic musings and profoundly honest recollections make an utterly unsentimental human comedy of that was the whole world to his dawning consciousness .

For Merini, it seems, the Holy Land is not the Promised Land of Canaan, but the forty years

spent getting there, coming to terms with the terrifying atrocities of hell, the mystical ecstasies of paradise, and the "intense pain...of plunging back into the banality of daily living." Merini's wandering may be understood as the poet's search for the obscure laws which govern her visions, metamorphoses, and creations."--

Dying to Know You
Allen & Unwin
Drawing out

her mother's childhood memories of life in southern Italy at the dawn of the twentieth century, Mary Melfi takes an unconventional approach to autobiographical writing. Italy Revisited serves as a double memoir, told in dialogue between a mother and a daughter. The conversation takes the reader to a medieval town high up in the mountains where time is told by the shadow the sun casts, where wheat

and olive oil are the currency of choice (barter is in use), and where marriage is as much about property as it is about love. As they re-create that vanished world, the pair finds greater understanding of the tumultuous relationships that sometimes exist between immigrant mothers and their children.

The 1973

Marine Mammal Protection Act at first appeared to be a major victory for environmentalists. It banned the use of oversized fishing nets in an attempt to save thousands of dolphins killed each year in tuna harvests. But hampered by exemptions, extensions, delays, and quotas, MMPA has instead created international turmoil in the tuna industry while still allowing some 20,000

dolphin deaths each year. In this revealing book, Alessandro Bonanno and Douglas Constance use the tuna-dolphin controversy to explore the rapidly increasing effects of globalization on agricultural and food production. Illustrating how private industries, political institutions, national economies, and social movements have been swept into a global arena, they reach

some intriguing and important conclusions about the complex and sometimes bewildering future of industry and the environment. Analyzing the controversy's outcome, they show how relatively small groups can, with effective organization, pass legislation that fundamentally changes the way corporations do business. The globalization that often

results, they contend, can have wide-reaching consequences—many of them unintended and unpredictable. Following passage of MMPA, U.S. tuna processors turned to foreign suppliers of "dolphin-safe" tuna while U.S. tuna fishing corporations deserted the U.S. market—circumventing MMPA altogether. Bilateral international agreements,

GATT, NAFTA, and the U.S. federal courts have intervened in the chaos and have been challenged from all sides—from the Bush Administration to Bumble Bee Tuna, from Greenpeace to the European Economic Community. Through it all, independent owners of fishing boats have been forced out of business, U.S. processing jobs have moved overseas, and environmentalists have continued their dolphin

campaign. Even those who appear to be benefiting may not be, the authors demonstrate. Despite increased opportunities for some foreign labor forces, the weakest segments—especially in developing countries—continue to be exploited. Stressing the limits that individual nations face in the current socio-economic climate and the conflicting agendas of a variety of labor and

environmental movements, Bonanno and Constance argue that the regulatory ability of any national government—even one with strong society support—must be rethought and redefined. Italy Revisited Springer
 After the sudden death of her Italian winemaker husband, Meryl Michelli flees to her small hometown in Pennsylvania, looking to

slam the door on heartache and trudge forward. But it's never that simple, especially when old family ties have been strained by years of geographic and emotional distance. A chance encounter with a childhood friend brings back betrayal she could never put to rest, and readjusting to life in the States in upper mid-life wears her thin in ways she never could have

imagined. Just when Meryl feels she can't go on, Providence steps in and gives her permission to completely fall apart. Only then can she finally manage to grieve both her magnanimous, flawed Francesco and the unforgettable country she left behind. True Vines traverses the manicured rows of northern Italy's majestic wine country and the winding path of the Pennsylvania's

Delaware River as Meryl seeks to reconcile her past and her present. Several people on each side of the Atlantic guide her as she relives her own stories: a spirited sister-in-law, a petulant physician, a strong-willed landlady, a good-guy boss, a determined mother-in-law, an amazing flood survivor, a Senegalese English student, a young co-worker. Each recollection and encounter

deepens Meryl's insight into how to make peace with her new reality. Saying goodbye to one existence allows Meryl to swing the door open to another as she weaves a new, uniquely beautiful tapestry that transports her to exactly the place in this short sacred life she is meant to be. True Vines Phaidon Press Chez Panisse is a restaurant in Berkeley, California, run by Alice Waters and her large group of

friends. Her daughter Fanny's stories of this busy place are a friendly and funny introduction to the delights of real restaurant life, and her recipes show how easy and inexpensive it is to make good food with basic ingredients and simple techniques. Opening up the magic world of cooking to children, Alice Waters describes, in the words of seven-year-old Fanny, the path food

travels from the garden to the kitchen to the table. Teaching kids where food really comes from not just from the market but from farms and people who care about the earth, Fanny at Chez Panisse has lessons on the importance of eating with your hands, of garlic and of composting and recycling. It is also a delightful beginner's cookbook with 46 recipes that will tempt children into the desire to

cook and eat with whole hearts, alert minds and all the senses. From banana milkshakes and green apple sherbet to cherry tomato pasta and black beans and sour cream, as well as spaghetti and meatballs, french fries and pizza, there is something here for every child to prepare and enjoy.

First published in 1891, Pellegrino Artusi's *La scienza in cucina e l'arte di mangiar bene* has come to be recognized as the most significant Italian cookbook of modern times. It was reprinted thirteen times and had sold more than 52,000 copies in the years before Artusi's death in 1910, with the number of recipes growing from 475 to 790. And while this figure has not

changed, the book has consistently remained in print. Although Artusi was himself of the upper classes and it was doubtful he had ever touched a kitchen utensil or lit a fire under a pot, he wrote the book not for professional chefs, as was the nineteenth-century custom, but for middle-class family cooks: housewives and their domestic helpers. His tone is that of

a friendly advisor – humorous and nonchalant. He indulges in witty anecdotes about many of the recipes, describing his experiences and the historical relevance of particular dishes. Artusi's masterpiece is not merely a popular cookbook; it is a landmark work in Italian culture. This English edition (first published by Marsilio Publishers in 1997) features a delightful introduction

by Luigi Ballerini that traces the fascinating history of the book and explains its importance in the context of Italian history and politics. The illustrations are by the noted Italian artist Giuliano Della Casa. **Cresci** Hachette UK A history of the breed from its origin in Wales, breeding, showing and care of the breed. American craft brewery, Rob DeSalle and Ian Tattersall peruse the historical record and traverse the globe for engaging and often surprising stories about beer. They explain how we came to drink beer, what ingredients combine to give beers their distinctive

flavors, how beer's chemistry works at the molecular level, and how various societies have regulated the production and consumption of beer. Drawing from such diverse subject areas as animal behavior, ecology, history, archaeology, chemistry,

sociology, law, genetics, physiology, neurobiology, and more, DeSalle and Tattersall entertain and inform with their engaging stories of beer throughout human history and the science behind it all. Readers are invited to grab a beer and explore the fascinating history of its creation.
