What does it mean to be an academic today? What kinds of experiences do students have, and how are they affected by what they learn? Why do so many students and their teachers feel like frauds? Can we learn to teach and research in ways that foster hope and deflate pretension? Academic Life and Labour in the New University: Hope and Other Choices addresses these big questions, discussing the challenges of teaching and researching in the contemporary university, the purpose of

research and its fundamental value, and the role of the academy against the background of major changes to nature of the university itself. Drawing on a range of international media sources, political discourse and many years' professional experience, this volume explores approaches to teaching and research, with special emphasis on the importance of collegiality, intellectual honesty and courage. With attention to the intersection of large-scale institutional changes and intellectual shifts such as the rise of transdisciplinarity and the development of a pluralist curriculum, this book proposes the pursuit of more ethical, compassionate and critical forms of teaching and research. As such, it will be of interest not only to scholars of cultural studies and education, but to all those who care about the fate of the university as an institution, including young scholars seeking to join the academy.

replacing humans on the job market and perhaps altogether? Will AI help life flourish like never before or give us more power than we can handle? What sort of future do you want? Parenting Dad (&/Or Mom) Rowman & Littlefield Publishers

The first comprehensive wedding guide specifically for the Jewish/Christian couple who wants to honor both religious traditions in their service, vows, and readings. Saying "I do" is one of the happiest moments in a couple's life together—but planning that trip to the altar can be a stressful ordeal. The minute an engagement is announced two full clans want to celebrate the union their way! When one of those families is Jewish (50 percent of whom now marry outside their faith) and the other is Christian, the religious details can increase the pressure on the bride-and groom-to-be. Celebrating Interfaith Marriages provides all of the expert advice on how to combine elements of the two faiths so everyone can rejoice with the bride and groom on their wedding day. Devon Lerner draws from her twenty years of officiating interfaith weddings as she discusses the significance of vows and traditions unique to both faiths and suggests how to incorporate them into a service that is balanced and beautiful. She provides Christian and Jewish services readers can mix and match, as well as custom-blended ceremonies contributed by couples who have worked with her over the

years. There's a chapter on how to avoid crashes on issues like location, when the ceremony takes place, and whether the bride and groom should see each other before meeting at the altar. A full section of readings, both biblical and secular, are here too, as well as anecdotes that will reassure and amuse. No interfaith couple will want to be without this essential handbook when they plan their special day.

Travel statistics say that baby boomers travel more than any other age group in America—and that an ever increasing number of them are looking for ways to spend their leisure time in substantial, meaningful ways. One especially fast-growing area of interest is the "experience-driven" or "wellness" vacation, a proactive approach based on the idea that true recreation involves positive engagement: acquiring a new skill or volunteering to share your own expertise; exercising your intellect or extending yourself in some creative, physical, or spiritual way. In response to such aspirations, this timely book showcases a broad range of the most life-enriching getaways in the U.S., Canada, and Mexico, with something for every taste and every interest. Here are programs dedicated to kayaking lessons, mountain biking, yoga instruction, and more. Perhaps you'd prefer to spend an arts and crafts holiday focused on a creative activity like cooking, painting, or woodworking. Imagine studying French in a Maine village, learning about nutrition at a historic North Carolina spa, or helping rebuild the devastated

communities of the Gulf Coast. Weave a Navajo rug; make a film in New York; learn to surf in Mexico; or choose any of scores of other possibilities. Elegantly designed and packed with attractive and fun descriptions, detailed travel information, lists of unique activities, and special sidebars, this unusual resource tells you all you need to know to ensure that your next vacation won't just be time off—it will be time well spent.

The essence of living in bliss is hidden within each and every human being—we just have to learn how to discover it.
