In thirty-one

new and updated chapters, organized thematically and introduced by Stella Vosniadou, this volume brings together detailed discussions of key theoretical and methodological issues, the roots of conceptual change research, and mechanisms of conceptual change and learner characteristics. What are the philosophical, pedagogical and practical challenges facing institutions as they endeavor to create global citizens? How is study abroad and global citizenship compatible with the role of the academy? What are the institutional challenges to study abroad, including those related to ethics, infrastructure, finances, accessibility, and quality control?
