 Description This course has been prepared for professionals aspiring to learn the basics of R and Python and develop applications involving machine learning techniques such as recommendation, classification, regression and clustering.
 Machine Learning using R and Python -
 Tutorialspoint Why use R for Machine Learning? Understanding R is one of the valuable skills needed for a career in Machine Learning. Below are some reasons why you should learn Machine learning in R. 1. It's a popular language for Machine Learning at top tech firms. Almost all of them hire data scientists who use R. Facebook, for example, uses R to do behavioral analysis with user post data.
 Machine Learning & Deep Learning in Python & R Download ...Examine the latest technological advancements in building a scalable machine learning model with Big Data using R. This book shows you how to work with a machine learning algorithm and use it to build a ML model from raw data. All practical

demonstrations will be explored in R, a powerful
 Machine Learning Using R | Karthik Ramasubramanian | Apress
 The Random Forest classification algorithm is the collection of several classification trees that operate as an ensemble. It is one of the most robust machine learning algorithms. In 'R', the randomForest library can be used to build the random forest model, which is loaded in the first line of code below.
 Machine Learning with Text Data Using R | Pluralsight
 This free online course Diploma in Machine Learning with R studio explains how machine learning (ML) techniques can be used to solve business problems. The course begins by explaining the basics of statistics, machine learning and the R programming language.
 Free Online Diploma in Machine Learning with R Course | Alison
 R has enough provisions to implement machine learning algorithms in a fast and simple manner. This is a complete tutorial to learn data science and machine learning using R. By the end of this tutorial, you will have a good exposure to building predictive

models using machine learning on your own.
