Confessions of a Public School Teacher:
A 35-Year Veteran's Assessment on How
Public Education Can Make the Grade
By: Michael Marra A veteran teacher of
35 years, Michael Marra believes deeply
in education's power to change lives. His
enthusiasm for helping children realize
their full potential lies at the core of his
lessons. His efforts to make history and
economics classes relevant to students'
lives, both inside and outside the
classroom, permeate his lively teaching
style. Marra's philosophy on how best to
improve our public schools does not sit
well with teacher unions. He believes
strongly that tenure, seniority and near-
endless due process protect poor
performing teachers and need swift,
meaningful revision. On this, Marra is
unwavering, and he presents refreshing
suggestions for unlocking what he
believes have become the greatest
shackles on American schools. Readers
will be well informed to make their own
assessment on these critical issues. Part

memoir, part argument and part how-to
guide for aspiring educators, *Confessions
of a Public School Teacher* is a must-read
for anyone who believes true learning
and development to be worthwhile
pursuits. Marra's quest to leave the
classroom a bit better than he found it is
both his greatest support of those we
cherish dearly—our children—and an
invitation for the reader to join the
conversation.

An American sailor courts a young Japanese woman and each tries, in secret, to learn the other's way of eating. Full color illustrations throughout.

Making Every Student an Active Learner, 2nd ed. WestBow Press

An innovative, comprehensive guide—the first of its kind—to help parents understand and accept learning

disabilities in their children, offering tips and strategies for successfully advocating on their behalf and helping them become their own best advocates. In *Thinking Differently*, David Flink, the leader of Eye to Eye—a national mentoring program for students with learning and attention issues—enlarges our understanding of the learning process and offers powerful, innovative strategies for parenting, teaching, and supporting the 20 percent of students with learning disabilities. An outstanding fighter who has helped thousands of children adapt to their specific learning issues, Flink understands the needs and experiences of these children first hand. He, too, has dyslexia and ADHD.

Focusing on how to arm students who think and learn differently with essential skills, including meta-cognition and self-advocacy, Flink offers real, hard advice, providing the tools to address specific problems they face—from building self-esteem and reconstructing the learning environment, to getting proper diagnoses and discovering their inner gifts. With his easy, hands-on "Step-by-Step Launchpad to Empowerment," parents can take immediate steps to improve their children's lives. *Thinking Differently* is a brilliant, compassionate work, packed with essential insights and real-world applications indispensable for parents, educators, and other professionals involved with children with learning disabilities.

Are you looking for ways to differentiate your instruction to meet the needs of gifted visual-spatial learners? You've found it in *Visual-Spatial Learners: Understanding the Learning Style Preference of Bright But Disengaged Students* (2nd ed.). Visual-spatial

learners are students who show advanced abilities with computers, maps, construction toys, and puzzles. The techniques outlined within these pages help all learners succeed—regardless of preferred learning style. Based on the most current understanding of the brain's hemispheric functions, the author provides a number of strategies and lesson plan ideas to help make your classroom a successful learning environment for all learners. These strategies address preparing students to succeed on timed tests; easing the pain of handwriting; teaching spelling using imagery; incorporating mnemonics, rhyme, and other tricks that engage the right hemisphere of the brain; helping students stay focused and on track; getting—and keeping—students organized; and much more!

The author shares the "secrets" of his successful learning in Math with readers in simple and clear terms. It takes the readers to discover the study techniques needed in Math and unleash their individual potential. It is the perfect book for students, parents, educators and anyone who wants to enhance their Math learning. If you want to excel in Mathematics, this is the book for you!

[Understanding the Learning Style Preference of Bright But Disengaged Students](#)
John Wiley & Sons

Math Your Kids WANT to Do. You'll love these math games because they give your child a strong foundation for mathematical success. By playing these games, you strengthen your child's intuitive understanding of numbers and build problem-solving strategies.

Mastering a math game can be hard work. But kids do it willingly because it's fun. *Math You Can Play Combo* features two books in one, with 42 kid-tested games that offer a variety of challenges for preschool and school-age learners.

Chapters include:

- Early Counting: Practice subitizing — recognizing small numbers of items at a glance—and learn the number symbols.
- Childhood Classics: Traditional folk games invite the whole family to enjoy playing with math.
- Number Bonds: Build a mental picture of the relationships between numbers as you begin to explore addition.
- Numbers to One Hundred: Develop mental math skills for working with larger numbers. Practice using place value, addition, and subtraction.
- Mixed Operations: Give mental muscles a workout with games that require number skills and logical thinking.
- Logic and Probability: Logic games sharpen inductive and deductive thinking skills, while games of chance

build an intuition for probability. Math games prevent math anxiety. Games pump up your child's mental muscle, reduce the fear of failure, and generate a positive attitude toward mathematics. Parents can use these games to enjoy quality time with your children. Classroom teachers like them as warm-ups and learning center activities or for a relaxing review day at the end of a term. If you are a tutor or homeschooler, make games a regular feature in your lesson plans to build your students' math skills. So what are you waiting for? Clear off a table, grab a deck of cards, and let's play some math!

Smart Study Skills MR TAN MATH

Between Rivers: More Confessions of the Slow Learner is the authors second look (the first one being *The Long Road to Grace: Confessions of a Slow Learner*) at Gods grace as he leads us slow-to-learn folk through the mazes of human experience. Set in the context of the Lords Prayer, the author draws from the varied life experiences of himself and others to show our Fathers grace, his leading, and ultimately our overcoming by his grace. More than beautiful thoughts, the Lords Prayer becomes a powerhouse of meaning, showing us how to relate to people, how to hallow Gods name, how to trust, how to forgive, how to shun temptation, how to receive deliverance, and finally, how to receive our glorious entrance into Gods eternal kingdom.

If you're wondering what it feels like to grow up and be a twin or a triplet then this is the book for you. With humour and honesty, identical triplet Kari Ertresvåg lays bare what it feels like to grow up as a twin or a triplet to jump-

start reflections for parents and ultimately make life easier for twins and triplets.

A Guide to Your Shut Down Learner's Success surviving education guides

Here are 51 easy-to-use, classroom-tested alternatives to the "stand and deliver" teaching techniques that cause so many students to tune out or drop out. Teachers report that these techniques motivate students to participate in learning, as they build confidence and are supported by compelling and safe ways to demonstrate their knowledge and understanding of lessons. Refined through years of classroom experiences and supported by updated research, this 2nd edition delivers a dozen new techniques to engage K-12 students in active learning. The authors provide detailed descriptions of the Total Participation Techniques (TPTs) with step-by-step instructions--plus reproducible blackline masters for student response cards as well as posters to remind you to use the techniques. They also suggest how you can adapt and personalize the techniques to fit your context and content. Packed with examples from authentic classrooms, Total Participation Techniques is an essential toolkit for teachers who want to present lessons that are relevant, engaging, and cognitively challenging. Pérsida Himmele and William Himmele are professors who regularly work with preservice teachers and consult with educators in U.S. and international schools. They are also the authors of Total Literacy Techniques.

The Confessions of S. Augustine

Houghton Mifflin Harcourt

Cut through the noise and make better college and career choices This book is about addressing the college-choosing

problem. The rankings, metrics, analytics, college visits, and advice that we use today to help us make these decisions are out of step with the progress individual students are trying to make. They don't give students and families the information and context they need to make such a high-stakes decision about whether and where to get an education. Choosing College strips away the noise to help you understand why you're going to school. What's driving you? What are you trying to accomplish? Once you know why, the book will help you make better choices. The research in this book illustrates that choosing a school is complicated. By constructing more than 200 mini-documentaries of how students chose different postsecondary educational experiences, the authors explore the motivations for how and why people make the decisions that they do at a much deeper, causal level. By the end, you'll know why you're going and what you're really chasing. The book:

- Identifies the five different Jobs for which students hire postsecondary education
- Allows you to see your true options for what's next
- Offers guidance for how to successfully choose your pathway
- Illuminates how colleges and entrepreneurs can build better experiences for each Job
- The authors help readers understand not what job students want out of college, but what "Job" students are hiring college to do for them.

The Definitive Guide for Parents of Twins and Triplets...from an Identical Triplet

Simon and Schuster

Karen Quinn has successfully taught hundreds of parents how to prepare their children for testing, and *Testing For Kindergarten* is her ultimate, comprehensive guide to having fun while

teaching to the underlying abilities every test assesses. Whether your child is going to a private kindergarten or a public school, he or she will most likely be tested—and placed in classrooms according to those results. But information about intelligence tests is closely guarded, and it can be difficult to understand what your kids need to know. As an expert who has successfully taught hundreds of parents how to work with their own children, Karen Quinn has written the ultimate guide to preparing your child for kindergarten testing. The activities she suggests are not about “teaching to the test.” They are about having fun while teaching to the underlying abilities every test assesses. From the “right” way to have a conversation to natural ways to bring out your child’s inner math geek, Quinn shares the techniques that every parent can do with their kids to give them the best chance to succeed in school and beyond. It’s just good parenting—and better test scores are icing on the cake. *Long Road to Grace, The Confessions of a Learner Parent* Parenting like a boss. (An inexperienced, slightly ineffectual boss.)

Colorful early reader's weather book, great for that budding learner in K-1st level. Two reproducible activity sheets for parents and teachers as addendums. Rhythmic, rhyming, and teaches simple weather and season words. Beautiful color illustrations, and letter sizing for earliest readers. Great repetition of high frequency words. A must for every early literacy experience! High frequency and new vocabulary list of 24 introduced words on last page of the book for good measure.

The Utility and Importance of

Creeds and Confessions Routledge

'I always wanted kids - but then again, I

always wanted a loft conversion. Both are pretty easy to put off as they're very expensive and tend to wreck your house.' Stand-up comedian Sam Avery (aka the Learner Parent) started his award-winning blog when his twin boys were born. A million nappies, Peppa Pig episodes and a lot less sleep later, he shares all the lows, highs and hilarious in-betweens of his experiences of first-time parenthood in this, his highly anticipated first book. Sam's honest, messy and laugh-out-loud account of trying for a baby (which transpired to be babes) and figuring out what to do with them once they arrived - right up to the toddler years of talking, walking and tantrum-ing - will have you crying with laughter between your own nappy changes and nursery runs.

Confessions of a Public School

Teacher Sentient Publications
SMART Study Skills (Christian School Edition) will help any student become an independent learner, get better grades, prepare for any test or exam, and master memory strategies for any subject. This book covers the whole spectrum of studying, from creating a SMART Study Plan to the process of evaluating the effectiveness of strategies. It is a must have for any student learning to study!

I Am Safe. I Am Good. I Am Loved.

Createspace Independent Publishing Platform

Merlin Nichols tried to make it on his own. He worried about his salvation and whether he was good enough. Perhaps like you or someone you know, he preached, held church offices, and was outwardly faithful to the church, but he was spiritually dead. That is, until Paul's message of grace to the Ephesians hit him between the eyes and changed him forever. The Long Road to Grace:

Confessions of a Slow Learner is an in-depth examination of Ephesians and its timeless message of grace that was needed in the early Christian church and is needed today. With a passion for helping the spiritually dead come back to life, Merlin examines the letter Paul wrote to Ephesus in light of the Bible as a whole. Taking the letter verse by verse, in the author's own words, and sharing stories from his life experiences, you will discover new insights into Paul's powerful message of the saving grace of Jesus Christ and the life-changing transformation that takes place when one fully submits to God.

From the author of The Shut-Down Learner, here is aid and comfort for parents of children having difficulty with school. Dr. Selznick offers perspective and understanding developed over his 25 years of working with thousands of academically struggling kids and their families. Tackling topics like excessive use of technology, parental indulgence of children, students who have trouble getting organized, and the importance of patience, this book will be a godsend for families struggling with school and behavioral issues.

Confessions of a Society Columnist

Seven Dials

#1 NEW YORK TIMES BESTSELLER •

More than one million copies sold! A "brilliant" (Lupita Nyong'o, Time), "poignant" (Entertainment Weekly), "soul-nourishing" (USA Today) memoir about coming of age during the twilight of apartheid "Noah's childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa's history that must never be forgotten."—Esquire Winner of the

Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by The New York Times, USA Today, San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist Trevor Noah's unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents' indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa's tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. *Born a Crime* is the story of a mischievous young boy who grows

into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man's relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconventional, unconditional love.
