From 1968 to 1972, St. Louis was home to the Black Artists' Group (BAG), a seminal arts collective that nurtured African American experimentalists involved with theater, visual arts, dance, poetry, and jazz. Inspired by the reinvigorated black cultural nationalism of the 1960s, artistic collectives had sprung up around the country in a diffuse outgrowth known as the Black Arts Movement. These impulses resonated with BAG's founders, who sought to raise black consciousness and explore the far reaches of interdisciplinary performance—all while struggling to carve out a place within the context of St. Louis history and culture. A generation of innovative artists—Julius Hemphill, Oliver Lake, and Emilio Cruz, to name but a few—created a moment of intense and vibrant cultural life in an abandoned industrial building on Washington Avenue, surrounded by the evisceration that

typified that decade's "urban crisis." The 1960s upsurge in political art blurred the lines between political involvement and artistic production, and debates over civil rights, black nationalism, and the role of the arts in political and cultural struggles all found form in BAG. This book narrates the group's development against the backdrop of St. Louis spaces and institutions, examines the work of its major artists, and follows its musicians to Paris and on to New York, where they played a dominant role in Lower Manhattan's 1970s "loft jazz" scene. By fusing social concern and artistic innovation, the group significantly reshaped the St. Louis and, by extension, the American arts landscape.

West of Harlem

University of Chicago Press

The story of freedom pivots on the choices black women made to retain control over their bodies and selves, their loved ones, and their futures. The story of freedom and all of its ambiguities begins with intimate acts steeped in power. It is shaped by the peculiar oppressions faced by African women and women of African descent. And it pivots on

the self-conscious choices black women made to retain control over their bodies and selves, their loved ones, and their futures. Slavery's rise in the Americas was institutional, carnal, and reproductive. The intimacy of bondage whet the appetites of slaveowners, traders, and colonial officials with fantasies of domination that trickled into every social relationship—husband and wife, sovereign and subject, master and laborer.

Intimacy—corporeal, carnal, quotidian—tied slaves to slaveowners, women of African descent and their children to European and African men. In *Wicked Flesh*, Jessica Marie Johnson explores the nature of these complicated intimate and kinship ties and how they were used by black women to construct freedom in the Atlantic world. Johnson draws on archival documents scattered in institutions across three continents, written in multiple languages and largely from the perspective of colonial officials and slave-owning men, to recreate black women's experiences from coastal Senegal to

French Saint-Domingue to Spanish Cuba to the swampy outposts of the Gulf Coast. Centering New Orleans as the quintessential site for investigating black women's practices of freedom in the Atlantic world, *Wicked Flesh* argues that African women and women of African descent endowed free status with meaning through active, aggressive, and sometimes unsuccessful intimate and kinship practices. Their stories, in both their successes and their failures, outline a practice of freedom that laid the groundwork for the emancipation struggles of the nineteenth century and reshaped the New World. *BAG Radical IntellectLiberator Magazine and Black Activism in the 1960s From the Origin of Humans to Today ... All in One Volume!* Highlights. Low lights. The twists and turns of social, political, and cultural history gathered in one fun and fascinating title! *The Handy History Answer Book: From the Stone Age to the Digital Age* takes a riveting walk through the ages, looking at the most important events of the past 5,000 years,

including wars, disasters, pandemics, births, lives, and more. It supplies context to the past with a wealth of information on invention, philosophy, science, politics, culture, sports, business, law, media, and religion. A concise guide to all things historical, this feast of facts and compelling stories recounts the revolutionary ideas, acts, and inventions that changed the world. It surveys significant people, times, and events worldwide, with a special focus on U.S. history from its beginnings to the present. Fully revised and updated, this new edition of *The Handy History Answer Book* answers over 1,600 of the most frequently asked, most interesting, and unusual history questions, including ... What was the Stone Age? Why was Julius Caesar murdered? What are the origins of the religion of Islam? Why is the COVID-19 pandemic so significant? Why is the shamrock the symbol of St. Patrick? What is the legacy of the Crusades today? What are England's royal "houses"? Did Marie Antoinette really say, "Let them eat cake"? When did people first migrate to North America? Who are the

Cajuns? What is the Hubble Space Telescope? What were the first political parties in the United States? Who was Black Elk? When did chain stores first appear? Were the Nazi's socialists? How long have hurricanes been given names? Who was Typhoid Mary? What happened at Pearl Harbor? What was the Bataan Death March? What is NATO? What is habeas corpus? Who was Emmett Till? Who was Genghis Khan? What was the triangular trade? Who is called the "Father of the Interstate System"? Who is Bernie Madoff? Who were the Wobblies? What was the Beat movement? Who is Ralph Nader?? What is the Occupy movement? What is the strongest earthquake ever measured? What happened on Apollo 13? What is Gray's Anatomy? What is origin of Listerine®? What is the problem with antibiotics today? Who developed the first MRI machine? How does it work? What are the Ivy League colleges? Who were the Brothers Grimm? Why does the Leaning Tower of Pisa lean? What was the Motion Picture Production Code? Which entertainers were in the Rat Pack? Who wrote the first

computer program? What is unique about the Trump presidency? If “History doesn't repeat itself but it often rhymes” (as Mark Twain is reputed to have said) then *The Handy History Answer Book* is a lyrical and poetic treat. Clear, concise, and straightforward, this informative primer is a resource for brushing up on the events, terms, and history-makers many of us remember from school but can't completely recall. Wide-ranging and comprehensive with nearly 250 illustrations, this information-rich tome also includes a helpful bibliography and an extensive index, adding to its usefulness. A perfect companion for history buffs of all ages.

Pumpkin Fairleigh

Dickinson Univ Press

In the past, foreign shocks arrived to national economies mainly through trade channels, and transmissions of such shocks took time to come into effect. However, after capital globalization, shocks spread to markets almost immediately. Despite the increasing macroeconomic dangers that the situation generated at emerging markets in the South, nobody at the North was ready to acknowledge the

pro-cyclicality of the financial system and the inner weakness of “decontrolled” financial innovations because they were enjoying from the “great moderation.” Monetary policy was primarily centered on price stability objectives, without considering the mounting credit and asset price booms being generated by market liquidity and the problems generated by this glut. Mainstream economists, in turn, were not majorly attracted in integrating financial factors in their models. External pressures on emerging market economies (EMEs) were not eliminated after 2008, but even increased as international capital flows augmented in relevance thereafter. Initially economic authorities accurately responded to the challenge, but unconventional monetary policies in the US began to create important spillovers in EMEs. Furthermore, in contrast to a previous surge in liquidity, funds were now transmitted to EMEs throughout the bond market. The perspective of an increase in US interest rates by the FED is generating a reversal of expectations and a

sudden flight to quality. Emerging countries' currencies began to experience higher volatility levels, and depreciation movements against a newly strong US dollar are also increasingly observed. Consequently, there are increasing doubts that the “unexpected” favorable outcome observed in most EMEs at the aftermath of the Global Financial Crisis (GFC) would remain.

Life and Labor Since World War II

University of Pennsylvania Press

For more than 15 years, *The Academic Job Search Handbook* has assisted job seekers in all academic disciplines in their search for faculty positions. The guide includes information on aspects of the search that are common to all levels, with invaluable tips for those seeking their first or second faculty position. This new edition provides updated advice and addresses hot topics in the competitive job market of today, including the challenges faced by dual-career couples, job search issues for pregnant candidates, and advice on how to deal with gaps in a CV. The chapter on alternatives to academic jobs has been expanded,

and sample resumes from individuals seeking nonfaculty positions are included. The book begins with an overview of the hiring process and a timetable for applying for academic positions. It then gives detailed information on application materials, interviewing, negotiating job offers, and starting the new job. Guidance throughout is aimed at all candidates, with frequent reference to the specifics of job searches in scientific and technical fields as well as those in the humanities and social sciences. Advice on seeking postdoctoral opportunities is also included. Perhaps the most significant contribution is the inclusion of sample vitas. The Academic Job Search Handbook describes the organization and content of the vita and includes samples from a variety of fields. In addition to CVs and research statements, new in this edition are a sample interview itinerary, a teaching portfolio, and a sample offer letter. The job search correspondence section has also been updated, and there is current information on Internet search methods and useful websites.

The Purple Decades brings together the author's own selections from his list of critically acclaimed publications, including the complete text of *Mau-Mauing* and *the Flak Catchers*, his account of the wild games the poverty program encouraged minority groups to play.

Staging the Blues

Rowman & Littlefield
In *Subversive Habits*, Shannen Dee Williams provides the first full history of Black Catholic nuns in the United States, hailing them as the "forgotten prophets" of Catholicism and democracy. Drawing on oral histories and previously sealed church records, Williams traces how Black sisters' struggles were informed by and intersected with secular freedom movements. For Black Catholic women and girls, embracing the celibate religious state constituted a radical act of resistance to white supremacy and the sexual terrorism built into the nation's systems of chattel slavery and segregation. Williams shows how Black sisters--such as Sister Mary Antona Ebo, who was the only Black member of the inaugural delegation of

Catholic sisters to travel to Selma, Alabama, and join the pivotal Black voting rights marches of 1965--were pioneering Black religious leaders, educators, healthcare professionals, desegregation foot soldiers, Black power activists, and womanist theologians. In the process, Williams calls attention to women's religious life in the Roman Catholic Church as a stronghold of white supremacy and racial segregation--and thus an important battleground in the long African American freedom struggle.

The St. Louis Commune of 1877

Bantam
Presumed Incompetent is a pathbreaking account of the intersecting roles of race, gender, and class in the working lives of women faculty of color. Through personal narratives and qualitative empirical studies, more than 40 authors expose the daunting challenges faced by academic women of color as they navigate the often hostile terrain of higher education, including hiring, promotion, tenure, and relations with students, colleagues, and administrators. The narratives are filled with wit, wisdom, and concrete

recommendations, and provide a window into the struggles of professional women in a racially stratified but increasingly multicultural America.

Ring Shout, Wheel About
University of Pennsylvania Press

The courageous and inspiring personal narratives and empirical studies in *Presumed Incompetent II: Race, Class, Power, and Resistance of Women in Academia* name formidable obstacles and systemic biases that all women faculty—from diverse intersectional and transnational identities and from tenure track, terminal contract, and administrative positions—encounter in their higher education careers. They provide practical, specific, and insightful guidance to fight back, prevail, and thrive in challenging work environments. This new volume comes at a crucial historical moment as the United States grapples with a resurgence of white supremacy and misogyny at the forefront of our social and political dialogues that continue to permeate the academic world. The Power of Culture

Routledge
Winner, 2019 Anna Julia Cooper and C.L.R. James Award, given by the National Council for Black Studies The inspiring story of the black students, faculty, and administrators who forever changed America's leading educational institutions and paved the way for social justice and racial progress The eight elite institutions that comprise the Ivy League, sometimes known as the Ancient Eight—Harvard, Yale, Princeton, Penn, Columbia, Brown,

Dartmouth, and Cornell—are American stalwarts that have profoundly influenced history and culture by producing the nation's and the world's leaders. The few black students who attended Ivy League schools in the decades following WWII not only went on to greatly influence black America and the nation in general, but unquestionably awakened these most traditional and selective of American spaces. In the twentieth century, black youth were in the vanguard of the black freedom movement and educational reform. *Upending the Ivory Tower* illuminates how the Black Power movement, which was borne out of an effort to edify the most disfranchised of the black masses, also took root in the hallowed halls of America's most esteemed institutions of higher education. Between the close of WWII and 1975, the civil rights and Black Power movements transformed the demographics and operation of the Ivy League on and off campus. As desegregators and racial pioneers, black students, staff, and faculty used their status in the black intelligentsia

to enhance their predominantly white institutions while advancing black freedom. Although they were often marginalized because of their race and class, the newcomers altered educational policies and inserted blackness into the curricula and culture of the unabashedly exclusive and starkly white schools. This book attempts to complete the narrative of higher education history, while adding a much needed nuance to the history of the Black Power movement. It tells the stories of those students, professors, staff, and administrators who pushed for change at the risk of losing what privilege they had. Putting their status, and sometimes even their lives, in jeopardy, black activists negotiated, protested, and demonstrated to create opportunities for the generations that followed. The enrichments these change agents made endure in the diversity initiatives and activism surrounding issues of race that exist in the modern Ivy League. Upending the Ivory Tower not only informs the civil rights and Black Power movements of the

postwar era but also provides critical context for the Black Lives Matter movement that is growing in the streets and on campuses throughout the country today. As higher education continues to be a catalyst for change, there is no one better to inform today's activists than those who transformed our country's past and paved the way for its future.

The Rockefeller Drug Laws and the Politics of Punishment Oxford University Press

A searing portrait of the racial dynamics that lie inescapably at the heart of our nation, told through the turbulent history of the city of St. Louis. From Lewis and Clark's 1804 expedition to the 2014 uprising in Ferguson, American history has been made in St. Louis. And as Walter Johnson shows in this searing book, the city exemplifies how imperialism, racism, and capitalism have persistently entwined to corrupt the nation's past. St. Louis was a staging post for Indian removal and imperial expansion, and its wealth grew on the backs of its poor black residents, from slavery through redlining and urban renewal. But it was once also America's most

radical city, home to anti-capitalist immigrants, the Civil War's first general emancipation, and the nation's first general strike—a legacy of resistance that endures. A blistering history of a city's rise and decline, *The Broken Heart of America* will forever change how we think about the United States.

How Insurgents Fight and Defeat Foreign States in War

U of Nebraska Press

Following the Civil War, large corporations emerged in the United States and became intent on maximizing their power and profits at all costs. Political corruption permeated American society as those corporate entities grew and spread across the country, leaving bribery and exploitation in their wake. This alliance between corporate America and the political class came to a screeching halt during the Great Railroad Strike of 1877, when the U.S. workers in the railroad, mining, canal, and manufacturing industries called a general strike against monopoly capitalism and brought the country to an economic standstill. In *The St. Louis Commune of 1877* Mark Kruger tells

the riveting story of how workers assumed political control in St. Louis, Missouri. Kruger examines the roots of the St. Louis Commune—focusing on the 1848 German revolution, the Paris Commune, and the First International. Not only was 1877 the first instance of a general strike in U.S. history; it was also the first time workers took control of a major American city and the first time a city was ruled by a communist party.

Radical Intellect
Liberator Magazine and Black Activism in the 1960s
UNC Press Books

The Curious History of an American Icon

Harvard University Press
Once a thriving metropolis on the banks of the Mississippi, St. Louis, Missouri, is now a ghostly landscape of vacant houses, boarded-up storefronts, and abandoned factories. The Gateway City is, by any measure, one of the most depopulated, deindustrialized, and deeply segregated examples of American urban decay. "Not a typical city," as one observer noted in the late

1970s, "but, like a Eugene O'Neill play, it shows a general condition in a stark and dramatic form." *Mapping Decline* examines the causes and consequences of St. Louis's urban crisis. It traces the complicity of private real estate restrictions, local planning and zoning, and federal housing policies in the "white flight" of people and wealth from the central city. And it traces the inadequacy—and often sheer folly—of a generation of urban renewal, in which even programs and resources aimed at eradicating blight in the city ended up encouraging flight to the suburbs. The urban crisis, as this study of St. Louis makes clear, is not just a consequence of economic and demographic change; it is also the most profound political failure of our recent history. *Mapping Decline* is the first history of a modern American city to combine extensive local archival research with the latest geographic information system (GIS) digital mapping techniques. More than 75 full-color maps—rendered from census data, archival sources, case law, and local planning and property

records—illustrate, in often stark and dramatic ways, the still-unfolding political history of our neglected cities.

The Language of Strong Black

Womanhood The New Press

In the midst of vast cultural and political shifts in the early twentieth century, politicians and cultural observers variously hailed and decried the rise of the "New Negro." This phenomenon was most clearly manifest in the United States through the outpouring of Black arts and letters and social commentary known as the Harlem Renaissance. What is less known is how far afield of Harlem that renaissance flourished—how much the New Negro movement was actually just one part of a collective explosion of political protest, cultural expression, and intellectual debate all over the world. In this volume, the Harlem Renaissance "escapes from New York" into its proper global context. These essays recover the broader New Negro experience as social movements, popular cultures, and public behavior spanned the globe from New York to

New Orleans, from Paris to the Philippines and beyond. *Escape from New York* does not so much map the many sites of this early twentieth-century Black internationalism as it draws attention to how New Negroes and their global allies already lived. *Resituating the Harlem Renaissance*, the book stresses the need for scholarship to catch up with the historical reality of the New Negro experience. This more comprehensive vision serves as a lens through which to better understand capitalist developments, imperial expansions, and the formation of brave new worlds in the early twentieth century. Contributors: Anastasia Curwood, Vanderbilt U; Frank A. Guridy, U of Texas at Austin; Claudrena Harold, U of Virginia; Jeannette Eileen Jones, U of Nebraska-Lincoln; Andrew W. Kahrl, Marquette U; Shannon King, College of Wooster; Charlie Lester; Thabiti Lewis, Washington State U, Vancouver; Treva Lindsey, U of Missouri-Columbia; David Luis-Brown, Claremont Graduate U; Emily Lutenski, Saint Louis U; Mark Anthony Neal, Duke

U; Yuichiro Onishi, U of Minnesota, Twin Cities; Theresa Runstedtler, U at Buffalo (SUNY); T. Denean Sharpley-Whiting, Vanderbilt U; Michelle Stephens, Rutgers U, New Brunswick; Jennifer M. Wilks, U of Texas at Austin; Chad Williams, Brandeis U. *The Intersections of Race and Class for Women in Academia* University Press of Colorado Published in association with AAC&U This book argues that the cognitive resources for learning of over half our young people have been diminished by the negative effects of economic insecurity, discrimination and hostility against non-majority groups based on race, ethnicity, sexual orientation, or gender identity, and other aspects of difference. Recognizing that these students are no different than their peers in terms of cognitive capacity, this book offers a set of strategies and interventions to rebuild the available cognitive resources necessary to succeed in college and reach their full potential. Members of these groups systematically experience conditions in their lives that result in chronic

stress and, therefore, decreased physical and mental health and social and economic opportunity. The costs of the many kinds of scarcity in their lives - money, health, respect, safety, affirmation, choices, belonging - is seriously reduced "mental bandwidth," the cognitive and emotional resources needed to deal with making good decisions, learning, healthy relationships, and more. People who are operating with depleted mental bandwidth are less able to succeed in school, starting in childhood, and are much less likely to make it to college. For those who do make it, their bandwidth capacity often interferes with learning, and therefore, persisting and graduating from college. This book presents variety of evidence-based interventions that have been shown, through implementation in high schools and colleges, to help students to regain bandwidth. They are variously intended for application inside and outside the classroom and address not only cognitive processes but also social-psychological, non-cognitive factors that are relevant to the college

environment as a whole. Beginning with an analysis of the impacts on mental and physical health and cognitive capacity, of poverty, racism, and other forms of social marginalization, Cia Verschelden presents strategies for promoting a growth mindset and self-efficacy, for developing supports that build upon students' values and prior knowledge and for creating learning environments both in and out of the classroom so students can feel a sense of belonging and community. She addresses issues of stereotyping and exclusion and discusses institutional structures and processes that create identity-safe rather than identity-threat learning environment. This book is intended for faculty, student affairs professionals, and college and university

administrators, all of whom have an interest in creating learning environments where all students have a chance to succeed.

A Nation of Neighborhoods

University of Pennsylvania Press

"Too important to be ignored....A fascinating look at America's obsession with race, pride, and privilege."—Essence
When Alice Jones, a former nanny, married Leonard Rhinelander in 1924, she became the first black woman to be listed in the Social Register as a member of one of New York's wealthiest families. Once news of the marriage became public, a scandal of race, class, and sex gripped the nation—and forced the couple into an annulment trial. "A compelling read."—Boston

Globe "This is a great story....Earl Lewis and Heidi Ardizzone tell it very well."—Chicago Tribune

A Reader New Directions Publishing

Revealing the challenges faced by blacks throughout a tumultuous century, the profiles feature people from various fields, including doctors, educators, musicians, journalists, men and women in business, pastors, and civil rights leaders. They each relate their experiences of racism, the obstacles they overcame in their professions, and the lessons life has taught them."--BOOK JACKET.

Black Silent Majority

University of Missouri Press

A politician's humorous memoir of his year in federal prison, with a viable prescription for a more productive, cost-effective corrections system.
