Embraced by adults as well as adolescents, Suzanne Collins's bestselling books have inspired an equally popular film franchise. But what, if anything, can reading the Hunger Games tell us about what it means to be human in the world today? What complex social and political issues
--	--	--

does the trilogy invite readers to explore? Does it merely entertain, or does it also instruct? Bringing together scholars in literacy education and the humanities, *The Politics of Panem: Challenging Genres* examines how the *Hunger Games* books and films, when approached from the standpoint of theory, can challenge readers and viewers intellectually.

At the same time, by subjecting Collins's trilogy to literary criticism, this collection of essays challenges its complexity as an example of dystopian literature for adolescents. How can applying philosophic frameworks such as those attributable to Socrates and Foucault to the *Hunger Games* trilogy deepen our appreciation for the issues it raises? What, if anything, can we learn from

considering fan responses to the *Hunger Games*? How might adapting the trilogy for film complicate its ability to engage in sharp-edged social criticism? By exploring these and other questions, *The Politics of Panem: Challenging Genres* invites teachers, students, and fans of the *Hunger Games* to consider how Collins's trilogy, as a representative of young adult dystopian

fiction, functions as a complex narrative. In doing so, it highlights questions and issues that lend themselves to critical exploration in secondary and college classrooms.

 This book uses an in-depth, phenomenological interview approach to explain the generational characteristics

of today's Chinese university youths and the critical dispositions they believe indispensable in acquiring English as an academic language in and outside school settings. By presenting the authentic voices of the recruited participants, the book clarifies how English for academic purposes (EAP), as an emerging global phenomenon and a research-informed

practice, enables and empowers them for conscious self-transformation and critical awareness development through language study. The book also explores issues arising in the fields of general English language teaching as well as traditional and critical EAP, and discusses university English language learners' learning needs and rights. The book further

promotes a dynamic and transformative University EAP pedagogy of particularity, practicality, and possibility moving from the oppression of language education to its liberation, and the increasing critical consciousness among the present and future university youths in a time of great social changes.

A Phenomenological Interview Study

Pearson South Africa
“This eloquent, elegant book thoughtfully plumbs the . . . consequences of our dependence on plastics” (The Boston

Globe, A Best Nonfiction Book of 2011). From pacemakers to disposable bags, plastic built the modern world. But a century into our love affair, we're starting to realize it's not such a healthy relationship. As journalist Susan Freinkel points out in this eye-opening book, we're at a crisis point. Plastics draw on dwindling fossil fuels, leach harmful chemicals, litter landscapes, and destroy marine life.

We're drowning in the stuff, and we need to start making some hard choices. Freinkel tells her story through eight familiar plastic objects: a comb, a chair, a Frisbee, an IV bag, a disposable lighter, a grocery bag, a soda bottle, and a credit card. With a blend of lively anecdotes and analysis, she sifts through scientific studies and economic data, reporting from China and across the

United States to assess the real impact of plastic on our lives. Her conclusion is severe, but not without hope. Plastic points the way toward a new creative partnership with the material we love, hate, and can't seem to live without. "When you write about something so ubiquitous as plastic, you must be prepared to write in several modes, and Freinkel rises to this task. . . . She manages

<p>to render the most dull chemical reaction into vigorous, breathless sentences.” —SF Gate “Freinkel’s smart, well-written analysis of this love-hate relationship is likely to make plastic lovers take pause, plastic haters reluctantly realize its value, and all of us understand the importance of individual action, political will, and technological innovation in weaning us off</p>	<p>our addiction to synthetics.” —Publishers Weekly “A compulsively interesting story. Buy it (with cash).” —Bill McKibben, author of <i>The End of Nature</i> “What a great read—rigorous, smart, inspiring, and as seductive as plastic itself.” —Karim Rashid, designer <i>RBI Grade B Officer Exam: Verbal Ability-English Section Ebook-PDF</i> Brush Education English for Bank PO</p>	<p>(Chapterwise Previous MCQs) IBPS/SBI po previous year solved papers, IBPS/SBI po English solved papers, Po kiran books, arihant books, po reasoning quantitative aptitude, po financial awareness, po practice sets, po Bank po English chapterwise solved papers, Bank po Quantitative aptitude chapterwise solved papers, Bank po reasoning chapterwise solved papers, Solved previous year</p>
