Our feline companions
are much-loved but
often mysterious. In
The Inner Life of Cats,
Thomas McNamee
blends scientific
reportage with

engaging, illustrative
anecdotes about his
own beloved cat,
Augusta, to explore
and illuminate the
secrets and enigmas of
her kind. As it begins,
The Inner Life of Cats
follows the
development of the
young Augusta while
simultaneously
explaining the basics of
a kitten's physiological

and psychological development. As the narrative progresses, McNamee also charts cats' evolution, explores a feral cat colony in Rome, tells the story of Augusta's life and adventures, and consults with behavioral experts, animal activists, and researchers, who will help readers more fully understand cats. McNamee shows that with deeper knowledge of cats' developmental phases and individual idiosyncrasies, we can do a better job of guiding cats' maturation and improving the quality of their lives. Readers' relationships with their feline friends will be happier and more harmonious because of this book.

Award-winning research psychologist Michael E. Addis identifies and provides answers surrounding the long-unspoken epidemic of silence and vulnerability in men. Drawing on scientific research, as well as his own personal and clinical experience, award-winning research psychologist Michael E. Addis describes in this book an epidemic of personal, relational, and societal problems that are caused by the widespread invisibility of men's vulnerabilities. From increasing rates of

suicide among men, to alcohol abuse, to violence and school shootings, his research reveals the continued cost of staying silent when emotional, physical, or spiritual pain enters men's lives. In the spirit of such bestsellers as William Pollack's *Real Boys*, Addis identifies the specific problems that result from men's silence and invisibility, what causes them, and how they can be changed. Addis provides readers with compelling stories of the causes and consequences of silence and invisibility in real men's lives. *Invisible Men* shows both male and female readers how they can break through the gauntlets that appear to protect men, but in reality cause severe

harm to men, women, and families.

Over the past decade of creating epic personal development retreats, Daniel Eisenman has traveled around the world experiencing beautiful, exotic settings and amazing people. His one big observation is that so many people keep the lid on their growth and opportunities to thrive. This is a self-imposed limitation ... nobody tells us to do this! Daniel blows the lid off and gives you a retreat experience in a book. What's inside *Breaking Normal: ReWild Your Inner Child and Set the Truth Free?* *You'll get to feel what it means to be raw and vulnerable, excited and glowing with a sacred

knowledge about your future. *You'll learn to communicate with others in a way that cuts through the limitations we used to let entangle us. *You'll have tools and insight for building your own tribe, be it your family or community or the world at large.

A psychologist's stories of doctors who seek to help others but struggle to help themselves From ER and M*A*S*H to Grey's Anatomy and House, the medical drama endures for good reason: we're fascinated by the people we must trust when we are most vulnerable. In Also Human, vocational psychologist Caroline Elton introduces us to

some of the distressed physicians who have come to her for help: doctors who face psychological challenges that threaten to destroy their careers and lives, including an obstetrician grappling with his own homosexuality, a high-achieving junior doctor who walks out of her first job within weeks of starting, and an oncology resident who faints when confronted with cancer patients. Entering a doctor's office can be terrifying, sometimes for the doctor most of all. By examining the inner lives of these professionals, Also Human offers readers insight into, and empathy for, the very real struggles of those who hold power over life and death.

Imagine what it would be like to go back in time to the 15th century Venice. And imagine what it would be like to meet your lifelong hero, Michelangelo. And imagine what it would be like if, on first meeting, you spill a tray of pasta and wine on that very same hero. Well, that's what happens to serious young artist Mark Breen. As the result of a drunken bet, Mark knocks out a painting of a toilet bowl. Much to his amazement, he sells it. In short order he's hailed as the new Andy Warhol and becomes an overnight sensation-and a very wealthy man. Soon, images of his toilet bowls are on more t-shirts, mugs, and

calendars than Edvard Munch's The Scream. His friend and mentor, Hugh Connelly, afraid that Mark is in danger of losing his "artistic soul," advises him to go back to Italy and reacquaint himself with the "old masters." In Venice, Mark falls in love with Alexandra, a beautiful art restorer, but it's a one-sided affair. One night, hoping to win her over, he climbs up on a roof to find out who painted her favorite fresco. He falls off the roof and wakes up in 15th century Venice where he meets an innkeeper named Francesca, who looks exactly like Alexandra. And it gets curiouser and curiouser from there. During his stay-which is sometimes zany and sometimes frightening-

he meet his hero,
Michelangelo, who
teaches him the true
meaning of art.

Jonathan Balcombe, animal behaviorist and author of the critically acclaimed "Pleasurable Kingdom," draws on the latest research, observational studies and personal anecdotes to reveal the full gamut of animal experience--from emotions, to problem solving, to moral judgment, while at the same time challenging the widely held idea that nature is red in tooth and claw and highlighting animal traits we have disregarded until now. *I, Athlete* Life Remotely Life is full of tough calls and daunting decisions. The question isn't if you'll face a big decision in the future, but how you'll face the tough call that's guaranteed to come your way. Think about

it. There are wedding proposals to ponder, college applications to submit, career moves to make, homes to sell, and confrontations to consider. And, knowing how poorly things could go, we sometimes find ourselves facing these decisions with a deep fear of future regret. The pressure is on. Or is it? Short and straightforward, yet full of practical insight and spiritual truths, *Tough Call*, will help you see that the Christian faith offers a mindset to confidently and joyfully make your next big decision. More importantly you'll see that you can face life with your fears recognized, your peace maximized, and your hope anchored in something greater than your ability to

"get it right." Readers familiar with authors like Acuff, Chan, and Tchividjian will resonate with Matt Popovits's witty, practical, and gospel-centered take on complicated topics. Tough Call is an enjoyable and essential read for any and all facing a major decision.

In *Interior States* Christopher Castiglia focuses on U.S. citizens' democratic impulse: their ability to work with others to imagine genuinely democratic publics while taking divergent views into account. Castiglia contends that citizens of the early United States were encouraged to locate this social impulse not in associations with others but in the turbulent and conflicted interiors of their own bodies. He describes how the human interior—with its battles between appetite and restraint, desire and deferral—became a displacement of the divided sociality of nineteenth-century America's public sphere and contributed to the vanishing of that

sphere in the twentieth century and the twenty-first. Drawing insightful connections between political structures, social relations, and cultural forms, he explains that as the interior came to reflect the ideological conflicts of the social world, citizens were encouraged to (mis)understand vigilant self-scrutiny and self-management as effective democratic action. In the late eighteenth century and early nineteenth, as discourses of interiority gained prominence, so did powerful counter-narratives. Castiglia reveals the flamboyant pages of antebellum popular fiction to be an archive of unruly democratic aspirations. Through close readings of works by Maria Monk and George Lippard,

Walt Whitman and Timothy Shay Arthur, Hannah Webster Foster and Hannah Crafts, and Nathaniel Hawthorne and Herman Melville, Castiglia highlights a refusal to be reformed or self-contained. In antebellum authors' representations of nervousness, desire, appetite, fantasy, and imagination, he finds democratic strivings that refused to disappear. Taking inspiration from those writers and turning to the present, Castiglia advocates a humanism-without-humans that, denied the adjudicative power of interiority, promises to release democracy from its inner life and to return it to the public sphere where U.S. citizens may yet create unprecedented

possibilities for social action.

One of the largest and fastest-growing religions, Islam is currently practiced by approximately one-fifth of the world's population. Unlike most religions that only consist of acts of worship, rituals, and a set of beliefs, it also offers a just socio-politico-economic system, which is especially important today as we continue to make significant material and scientific progress. However, although it presents real solutions to problems faced by the whole of mankind, factors such as worldwide media propaganda and the current condition of the Muslim community have seriously distorted the public image of Islam. Adeel Zeerak hopes that his

book *Islam: A Superior System of Life* will help change all that. He says that after careful study, even those with non-Muslim unprejudiced minds will appreciate the beauty of his religion's teachings. To prove the superiority of Islamic system over other systems, he provides concrete data obtained from authentic sources and refrains from using boastful or exaggerative language. Chapters in *Islam: A Superior System of Life* include:

- This is Islam
- Characteristics of the Islamic System
- Spiritual System
- Social System
- Economic System
- Political System
- The Prophet, peace be upon him, the Message, and the Ummah

"Despite

commendable progress in the field of science and technology, this world is full of evil, exploitation, and injustice," says Zeerak, who believes any effort to find a solution to our problems continually fails because we choose to ignore the light of Divine Guidance. We all know what happened to prophet Noah's people when they rejected this guidance, but we, thankfully, still exist in this world to follow our Lord and accept Islam. Written for the Muslim and non-Muslim, *Islam: A Superior System of Life* is for readers interested in Islam, the prophet Muhammad (PBUH), the Islamic view of women, the concept of Khilafat, Islamic finance, Islamic spirituality, and Islamic history. The author

promises that our obedience to Allah, subhanahu wa-ta'ala, will result in endless favors and blessings both in this world and the hereafter.

Thomas Gilovich offers a wise and readable guide to the fallacy of the obvious in everyday life. When can we trust what we believe—that "teams and players have winning streaks," that "flattery works," or that "the more people who agree, the more likely they are to be right"—and when are such beliefs suspect? Thomas Gilovich offers a guide to the fallacy of the obvious in everyday life.

Illustrating his points with examples, and supporting them with the latest research

findings, he documents the cognitive, social, and motivational processes that distort our thoughts, beliefs, judgments and decisions. In a rapidly changing world, the biases and stereotypes that help us process an overload of complex information inevitably distort what we would like to believe is reality. Awareness of our propensity to make these systematic errors, Gilovich argues, is the first step to more effective analysis and action.

 2013 The only novel from Alice Munro—award-winning author of *The Love of a Good Woman*--is an insightful, honest book, "autobiographical in form but not in fact,"

that chronicles a young girl's growing up in rural Ontario in the 1940's. Del Jordan lives out at the end of the Flats Road on her father's fox farm, where her most frequent companions are an eccentric bachelor family friend and her rough younger brother. When she begins spending more time in town, she is surrounded by women—her mother, an agnostic, opinionated woman who sells encyclopedias to local farmers; her mother's boarder, the lusty Fern Dogherty; and her best friend, Naomi, with whom she shares the frustrations and unbridled glee of adolescence. Through these unwitting mentors and in her own encounters with sex, birth, and death,

Del explores the dark and bright sides of womanhood. All along she remains a wise, witty observer and recorder of truths in small-town life. The result is a powerful, moving, and humorous demonstration of Alice Munro's unparalleled awareness of the lives of girls and women.

Rural Rides is the book for which the English journalist, agriculturist and political reformer William Cobbett is best known. At the time of

writing *Rural Rides*, in the early 1820s, Cobbett was a radical anti-Corn Law campaigner. He embarked on a series of journeys by horseback through the countryside of Southeast England and the English Midlands. He wrote down what he saw from the points of view both of a farmer and a social reformer. The result documents the early 19th-century countryside and its people as well as giving free vent to Cobbett's opinions

Holding Back The Tears

Basic Books

If movies and books like *Belle*, *Twelve Years a Slave*, *The Butler*, *The Help*, *A Time to Kill*, and *Amistad* have moved you, you'll love *A Complicated Legacy*, a novel by Baltimore

writer Robert H. Stucky based on the true story of Elijah Willis, a white South Carolina planter, and Amy- the love of his life, the mother of his children, and his slave. Taking place in the decade leading up to the Civil War, it is written with a cinematic eye for atmosphere and setting, a linguist's ear for dialogue, and a historian's grasp of the powerful social forces and momentous events of the time. It is a riveting tale of personal transformation in facing the tide of sweeping social change. Elijah Willis fought family opposition, public opinion, and the law to free his family of choice and leave them his entire inheritance. In so doing, his and

Amy's story becomes a microcosm of the human struggles that made the Civil War and the Abolition of Slavery both necessary and inevitable. Set in rural South Carolina, Baltimore, and Cincinnati, this vivid saga weaves history and humanity in a compelling testimony to the power of relationships to shape our destinies, even a century and a half later.

_____ Doctors are the people we turn to in our darkest moments. We trust them with our lives. But what does that stress do to a person? What does it take to confront death, disease, distress and suffering every day? To work in a healthcare system stretched to breaking point? To make decisions that will change lives - or possibly end them? And how do doctors cope with their own questions and fears, when they are expected to have all the answers? Caroline Elton is a psychologist who, for two decades, has specialised in helping doctors: the obstetrician whose own fertility treatment

failed; the trainee oncologist struggling to face patients with the disease that killed her father; the brilliant neurosurgeon whose career stalled in an environment hostile to women; and many more. Drawing on extraordinary case studies and decades of work supporting clinicians, *Also Human* presents a provocative, perceptive and deeply humane examination of the modern medical profession.
