The inspirational story of William "Bill" Lewis, a hardworking blacksmith who slowly saved his money to free his family-- Publisher-provided summary.

The William Lewis Story Prentice Hall

Two former circus performers-turned-master detectives uncover clues when a poisoner begins stalking the streets of mid-19th-century London and threatening the queen. By the author of *Wild Boy*.

The Boy from the Wild Flash Point

A young man escapes his painful past by retreating to the rustic comfort of the Italian Alps in this gorgeously wrought memoir from the internationally bestselling author of the "exquisite" (Annie Proulx) novel *The Eight Mountains*. When life in the city becomes too overwhelming for Paolo, he decides to take refuge high in the Italian mountains. Returning to the breathtaking Valle d'Aosta—known for its snowcapped mountain peaks—after a decade's absence, he rediscovers a simpler life and develops deep human connections with two neighbors. In this stunning landscape, he begins to take stock of his life and consider what he truly values. With lyrical and evocative prose, *The Wild Boy* is a testament to the power of the natural world, the necessity of an ever-questioning mind, and the resilience of the human spirit. Penguin

Nominated for both the Shirley Jackson and Bram Stoker Awards, and a Best of 2016 selection of Tor.com and Book Riot, acclaimed horror writer Stephen Graham Jones' *Mongrels* goes beyond your typical werewolf story to show a young boy, mired in poverty and always on the run, coming-of-age in a world that fears him and hates his family...but may just be more monstrous than he could ever be. He was born an outsider, like the rest of his family. Poor yet resilient, he lives in the shadows with his aunt Libby and uncle Darren, folk who stubbornly make their way in a society that does not understand or want them. They are mongrels, mixed blood, neither this nor that. The boy at the center of *Mongrels* must

decide if he belongs on the road with his aunt and uncle, or if he fits with the people on the other side of the tracks. For ten years, he and his family have lived a life of late-night exits and narrow escapes—always on the move across the South to stay one step ahead of the law. But the time is drawing near when Darren and Libby will finally know if their nephew is like them or not. And the close calls they've been running from for so long are catching up fast now. Everything is about to change. A compelling and fascinating journey, *Mongrels* alternates between past and present to create an unforgettable portrait of a boy trying to understand his family and his place in a complex and unforgiving world. A smart and innovative story— funny, bloody, raw, and real—told in a rhythmic voice full of heart, *Mongrels* is a deeply moving, sometimes grisly, novel that illuminates the challenges and tender joys of a life beyond the ordinary in a bold and imaginative new way.

Into the Wild Atria Books

What happens when society finds a wild boy alone in the woods and tries to civilize him? A true story from the author of *The Fairy Ring*. One day in 1798, woodsmen in southern France returned from the forest having captured a naked boy. He had been running wild, digging for food, and was covered with scars. In the village square, people gathered around, gaping and jabbering in words the boy didn't understand. And so began the curious public life of the boy known as the Savage of Aveyron, whose journey took him all the way to Paris. Though the wild boy's world was forever changed, some things stayed the same: sometimes, when the mountain winds blew, "he looked up at the sky, made sounds deep in his throat, and gave great bursts of laughter." In a moving work of narrative nonfiction that reads like a novel, Mary Losure invests another compelling story from history with vivid and arresting new life. Back matter includes an author's note, source notes, and a bibliography.

The Horse That Came in from the Wild John Blake

It's a good day for flying with the ravens: pale-blue sky, wispy clouds, gentle updrafts. It's also the last ordinary day before everything changes forever. To Nettle and her cousin Bracken, the youngest witches in the coven, the world outside their hidden valley is enticing, mysterious, and forbidden; but they never imagined they would ever see it. Then suddenly the veil that protects their valley is breached and the Wellspring Water needed to repair it is polluted, forcing them to travel to a human city in search of the Door to another world. A wishing necklace, seeking stones, a wily raccoon, human Witchfriends, and long-lost loved ones help Nettle and Bracken on their quest. Will their fledgling magic be strong enough, or will encroaching human civilization spell the end of Witchkind?

The Notorious Benedict Arnold Ember

An Elephant in the Garden is Simon Reade's new adaptation of Michael Morpurgo's best-selling children's novel. 1945. Dresden, Germany. Lizzie, her mother - and an elephant from the zoo, flee the Allied fire-bombing in the end-game of the Second World War. Escaping the Allies' advance from the West - and also the advancing Russian armies from the East - this extraordinary trio of refugees meet: a downed RAF officer, cowering in a barn; a homeless school choir on the run and their Countess saviour, harbouring them from the Nazis; and the mechanised American cavalry, appearing over the horizon. It is Lizzie's story - but Marlene, the elephant, is the heroine. Plodding, obdurate, opportunistic, loadbearing, indestructible, cheering - Marlene embodies the stubbornness of the human will and how it will do everything to survive.

A surprising true story of Isaac Newton's boyhood suggests an

intellectual development owing as much to magic as science. Before Isaac Newton became the father of physics, an accomplished mathematician, or a leader of the scientific revolution, he was a boy living in an apothecary's house, observing and experimenting, recording his observations of the world in a tiny notebook. As a young genius living in a time before science as we know it existed, Isaac studied the few books he could get his hands on, built handmade machines, and experimented with alchemy—a process of chemical reactions that seemed, at the time, to be magical. Mary Losure's riveting narrative nonfiction account of Isaac's early life traces his development as a thinker from his childhood, in friendly prose that will capture the attention of today's budding scientists—as if by magic. Back matter includes an afterword, an author's note, source notes, and a bibliography.

A New York Times Bestseller "The Wild Truth is an important book on two fronts: It sets the record straight about a story that has touched thousands of readers, and it opens up a conversation about hideous domestic violence hidden behind a mask of prosperity and propriety."—NPR.org The spellbinding story of Chris McCandless, who gave away his savings, hitchhiked to Alaska, walked into the wilderness alone, and starved to death in 1992, fascinated not just New York Times bestselling author Jon Krakauer, but also the rest of the nation. Krakauer's book, *Into the Wild*, became an international bestseller, translated into thirty-one languages, and Sean Penn's inspirational film by the same name further skyrocketed Chris McCandless to global fame. But the real story of Chris's life and his journey has not yet been told—until now. The missing pieces are finally revealed in *The Wild Truth*, written by Carine McCandless, Chris's beloved and trusted sister. Featured in both the book and film, Carine has wrestled for more than twenty years with the legacy of her brother's journey to self-discovery, and now tells her own story while filling in the blanks of his. Carine was Chris's best friend, the person with

whom he had the closest bond, and who witnessed firsthand the dysfunctional and violent family dynamic that made Chris willing to embrace the harsh wilderness of Alaska. Growing up in the same troubled household, Carine speaks candidly about the deeper reality of life in the McCandless family. In the many years since the tragedy of Chris's death, Carine has searched for some kind of redemption. In this touching and deeply personal memoir, she reveals how she has learned that real redemption can only come from speaking the truth.

True Stories of Six Extraordinary Children Bloomsbury Publishing Don't Let's Go to the Dogs Tonight meets Mean Girls in this funny, insightful fish-out-of-water memoir about a young girl coming of age half in a "baboon camp" in Botswana, half in a ritzy Philadelphia suburb. Keena Roberts split her adolescence between the wilds of an island camp in Botswana and the even more treacherous halls of an elite Philadelphia private school. In Africa, she slept in a tent, cooked over a campfire, and lived each day alongside the baboon colony her parents were studying. She could wield a spear as easily as a pencil, and it wasn't unusual to be chased by lions or elephants on any given day. But for the months of the year when her family lived in the United States, this brave kid from the bush was cowed by the far more treacherous landscape of the preppy, private school social hierarchy. Most girls Keena's age didn't spend their days changing truck tires, baking their own bread, or running from elephants as they tried to do their schoolwork. They also didn't carve bird whistles from palm nuts or nearly knock themselves unconscious trying to make homemade palm wine. But Keena's parents were famous primatologists who shuttled her and her sister between Philadelphia and Botswana every six months. Dreamer, reader, and adventurer, she was always far more comfortable avoiding lions and hippopotamuses than she was dealing with spoiled middle-school field hockey players. In Keena's funny, tender memoir, *Wild Life*, Africa bleeds into America and vice versa, each

culture amplifying the other. By turns heartbreaking and hilarious, *Wild Life* is ultimately the story of a daring but sensitive young girl desperately trying to figure out if there's any place where she truly fits in.

A vivid, riveting novel about an abandoned boy who takes up with a pack of feral dogs Two million children roam the streets in late twentieth-century Moscow. A four-year-old boy named Romochka, abandoned by his mother and uncle, is left to fend for himself. Curious, he follows a stray dog to its home in an abandoned church cellar on the city's outskirts. Romochka makes himself at home with Mamochka, the mother of the pack, and six other dogs as he slowly abandons his human attributes to survive two fiercely cold winters. Able to pass as either boy or dog, Romochka develops his own moral code. As the pack starts to prey on people for food with Romochka's help, he attracts the attention of local police and scientists. His future, and the pack's, will depend on his ability to remain free, but the outside world begins to close in on him as the novel reaches its gripping conclusion. In this taut and emotionally convincing narrative, Eva Hornung explores universal themes of the human condition: the importance of home, what it means to belong to a family, the consequences of exclusion, and what our animal nature can teach us about survival.
