Hardware for Floating Structures Includes all amendments and changes through Reaffirmation Notice , June 2015 View AbstractAPI RP 2I : In-service Inspection of Mooring Hardware for ...The Semi-Autonomous Mooring Inspection Robot (SAMIR) combines visual inspection,

photogrammetric measurement and Magnetic Flux Leakage (MFL) technology to assess the in-service condition of sheathed and unsheathed wire mooring lines. This system provides quantitative inspection of internal defects, which cannot be seen, by visual inspection alone. Mooring inspection services | Ashtead Technology The in-service permanent monitoring of a mooring system is an efficient method for the early detection of mooring failures. Despite that,

however, many of currently operational FPSOs do not have a reliable means of detecting a mooring line failure. Maintaining Integrity of FPSO Mooring System In-service Inspection of Mooring Hardware for Floating Structures Upstream Segment API RECOMMENDED PRACTICE 21 THIRD EDITION, APRIL 2008 In-service Inspection of Mooring Hardware for Floating ... Inspections are automatically scheduled every three years for annual service

customers. Complete inspection includes: · Haul of entire mooring · Visual inspections of all components · Replacement of any worn tackle · Mooring inspection reports will be delivered to the appropriate town office · Deck Inspections: We use our hydraulic lifter when a mooring must be lifted above the surface and hauled on deck for inspection. This is required for most town inspections. Mooring Services - Shoreline Diving Mooring tackle

must adhere to the minimum standards set forth in the town regulations (see full regulations of inspection forms). Some areas in town require short shank anchors only. If winter sticks are used, we highly recommend you do, they must not be placed prior to October 1st, and they must be removed no later than June 15th annually. Mooring Regulation Highlights | Falmouth, MA Our WINTERIZING service consists of: 1. Remove mooring ball, pendant and

pick up stick from water  
 2. Power wash and store mooring ball, pendant and pick up stick  
 3. Install our winter stick to your mooring tackle  
 Our SUMMERIZING service consists of: 1. Bottom paint mooring ball  
 2. Repaint mooring number if worn off
