'I have used this book in all its editions since first publication with my undergraduate and postgraduate students. It is a core text for all the students, because it provides the detail they require at an academic level. Importantly it is a book for the practitioner to use too. This is why we use it on our postgraduate practitioner programmes – where we actually buy the book for the students as we believe it is that important. No other text

comes close and literally thousands of our graduates have benefitted from it in their subsequent careers: written by the specialist for the specialist.' David Edmundson-Bird Principal Lecturer in Digital Marketing Manchester Metropolitan University Now in its sixth edition, Digital Marketing: Strategy, Implementation and Practice provides comprehensive, practical guidance on how companies can get the most out of digital media and technology to meet

their marketing goals. Digital Marketing links marketing theory with practical business experience through case studies and interviews from cutting edge companies such as eBay and Facebook, to help students understand digital marketing in the real world. Readers will learn best practice frameworks for developing a digital marketing strategy, plus success factors for key digital marketing techniques including search marketing,

conversion optimisation and digital communications using social media including Twitter and Facebook. Dave Chaffey is a digital marketing consultant and publisher of marketing advice site SmartInsights.com. He is a visiting lecturer on marketing courses at Birmingham, Cranfield and Warwick universities and the Institute of Direct Marketing. Fiona Ellis-Chadwick is a Senior Lecturer in Marketing at the Loughborough University School of

Brand marketers are still taking their first steps into the digital world by migrating their traditional mindset into the new communication channels they have at hand.

Traditional branding, being strongly based on reach & frequency, is

being copied to digital branding initiatives, thus ignoring the great opportunity digital media provides, as a two-way communication channel, to further engage with their audiences. The book proposes a comprehensive measurement framework to help shape the mindset of the next generation of digital brand marketers and enable them to focus not only on brand exposure and its impact on sales, but also on the brand experience they can now create using

digital media, and its impact on long term profitability. It guides you on a step by step through the five stages of the framework: 1. Expose your brand 2. Attract people to your brand territory 3. Engage providing valuable experiences 4. Retain attention over the long term 5. Influence perception, intent or behavior We also provide the set of KPIs that need to be measured at each of the stages. KPIs are designed to fulfill two different needs: the need to optimize efforts on a

day-by-day basis, and the need to assess high-level success at each of the stages of the framework. Finally, we'll help you bring accountability by surfacing the link between your online branding efforts and the most important outcomes expected from any branding campaign: to drive sales and to grow loyalty.

The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired

millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. *START WITH WHY* asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the

successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. *START WITH WHY* shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else

does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.
