Dreams are the currency of Okri's writing, particularly in this first book of poems, *An African Elegy*, but also in his books of short stories and prize-winning novel *The Famished Road*. Okri's dreams are made on the stuff of Africa's colossal economic and political problems, and reading the poems is to experience a constant succession of metaphors of resolution in both senses of the word. Virtually every poem contains an exhortation to climb out of the African miasma, and virtually every poem harvests the dream of itself with an upbeat restorative ending' - Giles Foden, *Times Literary Supplement*

 The Landlady is a brilliant gem of a short story from Roald Dahl, the master of the sting in the tail. In *The Landlady*, Roald Dahl, one of the world's favourite authors, tells a sinister story about the darker side of human nature. Here, a young man in need of room meets a most accommodating landlady . . . The Landlady is taken from the short story collection *Kiss Kiss*, which includes ten other devious and shocking stories, featuring the wife who pawns the mink coat from her lover with unexpected results; the priceless piece of furniture that is the subject of a deceitful bargain; a wronged woman taking revenge on her dead husband, and others. 'Unnerving bedtime stories, subtle,

proficient, hair-raising and done to a turn.' (San Francisco Chronicle) This story is also available as a Penguin digital audio download read by Tamsin Greig. Roald Dahl, the brilliant and worldwide acclaimed author of *Charlie and the Chocolate Factory*, *James and the Giant Peach*, *Matilda*, and many more classics for children, also wrote scores of short stories for adults. These delightfully disturbing tales have often been filmed and were most recently the inspiration for the West End play, *Roald Dahl's Twisted Tales* by Jeremy Dyson. Roald Dahl's stories continue to make readers shiver today.

Have You Seen *Zandile*? is a wonderful South African resource, still as fresh and absorbing as when it was first written. Perfectly scripted, and with Gcina Mhlophe's sure instinct for stagecraft, it recounts the very personal story of *Zandile*, who is snatched away from her grandmother's loving care and taken to live with her matriarchal family in rural Transkei. Moving, funny and convincing, full of *Zandile*'s shrewd, youthful insights, the play offers an illuminating window into the 1960s world that it depicts, with its issues of white dominance, rural hardship and black female repression. *Have You Seen Zandile?* is already an established favorite in performance circles, and is fast becoming a South African classic.

Seminar paper from the year 2007 in the subject English Language and Literature Studies - Linguistics, grade: 2,0, University of Duisburg-Essen, course: English in Africa, 10 entries in the bibliography, language: English, comment: This essay offers a structured overview of questions of language and society in South Africa since the end of the apartheid period.

Problems concerning language identity, language planning and language in education...., abstract: Since 1996, South Africa is a country of 11 official languages. Some of them interfere more than others but each of them contributes to creating the South African English . SAE "is an established and unique dialect, with strong influences from Afrikaans and the country's many African languages." (SA info) So when all South Africans speak their lingua franca and their mothertongue they are at least bilingual if not multilingual. What I want to find out here, is whether bilingualism means obtaining several cultures in South Africa or if the use of the powerful SAE, which is also called 'killer-language', leads to a loss of cultures. English, of course, seems to be a global lingua franca and therefore it is powerful and it intends a higher education of its speakers. In South Africa, "fewer than ten per cent of people speak English at home." (Spot on) but "all South African pupils learn English, and it's the language most schools use to teach other subjects." (Spot on). That is a great chance for the pupils but problems arise when some children speak better than their teachers who learned their mothertongue or the former official language, Afrikaans, themselves.

The World Atlas of Language Structures is a book and CD combination displaying the structural properties of the world's languages. Its 142 world maps and numerous regional maps are all in full colour. Each world map shows an average of 400 languages and is accompanied by a fully referenced description. The CD provides an interactive version of the database which allows the user to customize the maps and find and test correlations. The Atlas is an indispensable source of information for linguists, anthropologists, and geographers. It will be especially valuable for typologists, grammatical theorists, historical linguists, and those interested in a particular region. It sets new standards in comparative linguistics. No institution involved in language research can afford to be without it.

Apartheid isn't over—so Malaika Wa Azania boldly argues in *Memoirs of a Born Free*, her account of growing up black in modern-day South Africa. Malaika was born in late 1991, as the white minority government was on its way out, making her a "Born Free"—the name given to the generation born after the end of apartheid. But Malaika's experience with institutionalized racism offers a view of South Africa that contradicts the implied racial liberation of the so-called Rainbow Nation. Recounting her upbringing in a black township racked by poverty and disease, the death of a beloved uncle at the hands of white police, and her alienation at multiracial schools, she evokes a country still held in thrall by de facto apartheid. She takes us through her anger and disillusionment with the myth of black liberation to the birth and development of her dedication to the black consciousness movement, which continues to be a guiding force in her life. A trenchant, audacious, and ultimately hopeful narrative, *Memoirs of a Born Free* introduces an important new voice in South African—and, indeed, global—activism.

The Early Grade Reading Assessment (EGRA) measures students' progress towards reading. EGRA gauges early literacy skills through a 15-minute individual oral assessment of five fundamental reading skills. RTI worked with education experts to develop the EGRA in 2006, and it has been piloted and implemented in more than 40 countries. This volume aims to take stock of the substantial amount of information and

experience generated through the use of EGRA, and to share this knowledge with practitioners, policymakers, and international donors. Chapters cover not only particular applications of the instrument but also put EGRA in the context of broader issues and developments in literacy and education.

Analytic Trigonometry with Applications GRIN Verlag

Information structure deals with the linguistic forms and techniques that support the integration of what is said into the current informational and attentional state of the addressee. This shows in categories like topic-comment structuring, focus to highlight expressions, marking of givenness and of presupposed information, and ways to indicate that the information provided is restricted. The book relates information structure to theoretical models of grammar, to computation and modelling and brings together what is known about the expression of information structure in human language with regard to its empirical investigation, its psycholinguistic aspects and the acquisition of information structure. Since the need to integrate what is said into the informational and

attentional state of the addressee is central to all human communication, it is not surprising that all natural languages have developed devices to express information structural categories. To illustrate this, the book also provides concrete and theory independent descriptions of the information structural encoding strategies of individual languages of different types. The book can be used as a textbook appropriate for advanced undergraduate and graduate courses; it also provides information for linguists that are not specialists in the field.
