JOSIE KERR

Bento CRC Press

The X-Men are back in the cinema. Wolverine, Professor X, Cyclops, Jean Grey and the rest of the team return in X2, facing a new threat so dangerous that former enemy Magneto must join their ranks to defeat it.

Springer

Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery

in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the

rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

Midnight Eclipse Hardie Grant

They may ride off into the sunset, but cowboys never go out of style. These manly men embody the fiercely independent, earthy alpha male and hero who isn't afraid to show the gentle, nurturing side of his complex nature when faced with a woman in need. Even when he's coated with dust from riding behind a herd of cattle or up to his knees in mud

freeing a calf from a wallow, this stud still generates a lot of Cowboy Heat. Delilah Devlin's *Cowboy Lust* was a sensation, hitting the top ten of romance books and generating a river of praise. Award-winning Devlin is back on the ranch with stories of rugged romantics, rough riders, and rope wranglers sure to satisfy any reader who craves the idea of that gruff, romantic hero, a man of few words but many moves. *Cowboy Heat* sits tall in the saddle, winning hearts and spurring readers to new heights of happiness. *Nymphomation* Univ of South Carolina Press

"Aimed at second- and third-year ethics courses offered out of medical schools, health sciences departments, and nursing programs, *Doing Right: A Practical Guide to Ethics for Medical Trainees* is a practical guide to analyzing and resolving the ethical dilemmas medical practitioners face on a day-to-day basis. Drawing extensively on real-life scenarios, this book takes a case-based approach to provide students and practitioners with the advice and skills they need to help their patients and overcome ethical challenges in the field. Newly co-authored by Wayne Rosen and fully revised and updated to include up-to-date coverage of such important topics as the impact of digital technology and social media, Medical Assistance in Dying legislation, this fourth edition of *Doing Right* will provide readers with the most up-to-date guidebook to medical ethics available."--

An exclusive insight into the work and specialist skills of 12 premier contemporary mosaic artists Each chapter in this inspiring look at contemporary mosaic art is written by a different artist and gives their unique story, including their inspirations and influences, and how they design, create, and install their mosaics. Color photos throughout the book showcase the artists' past and present commissions. Whether you work in stone, glass, or ceramic, and are figurative or abstract in expression, this magnificent volume, which explores the work of the best artists in the business, is a must for anyone with an interest in this incredible art form. Featured in the book are Emma Biggs, Paul Bull, Trevor Caley, Martin Cheek, Gary Drostle, Elaine Goodwin, Maggie Howath, Tessa Hunkin, Jo Letchworth, Jane Muir, and Norma Vondee. *Buying a New Sewing Machine* Penguin The complete works of one of England's greatest Edwardian writers Saki is perhaps the most graceful spokesman for England's 'Golden Afternoon' - the slow

and peaceful years before the First World War. Although, like so many of his generation, he died tragically young, in action on the Western Front, his reputation as a writer continued to grow long after his death. His work is humorous, satiric, supernatural, and macabre, highly individual, full of eccentric wit and unconventional situations. With his great gift as a social satirist of his contemporary upper-class Edwardian world, Saki is one of the few undisputed English masters of the short story and one of the great writers of a bygone era. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Disciple IV Penguin

Marker-assisted plant breeding involves the application of molecular marker techniques and statistical and bioinformatics tools to achieve plant breeding objectives in a cost-effective and time-efficient manner. This book is intended for beginners in the field who have little or no prior exposure to molecular markers and their applications, but who do have a basic knowledge of genetics and plant breeding, and some exposure to molecular biology. An attempt has been made to provide sufficient basic information in an easy-to-follow format, and also to discuss current issues and developments so as to offer comprehensive coverage of the subject matter. The book will also be useful for breeders and research workers, as it offers a broad range of up-to-the-year information, including aspects like the development of different molecular markers and their various applications. In the first chapter, the field of marker-assisted plant breeding is introduced and placed in the proper perspective in relation to plant breeding. The next three chapters describe the various molecular marker systems, while mapping populations and mapping procedures including high-throughput genotyping are discussed in the subsequent five chapters. Four chapters are devoted to various applications of markers, e.g. marker-assisted selection, genomic selection, diversity analysis, finger printing and positional cloning. In closing, the last two chapters provide information on relevant

bioinformatics tools and the rapidly evolving field of phenomics.

Pocket RBG Wisdom HarperCollins

This volume of original stories is all for furry feline friends. A unique collection of fantastical cat tales.

Fallocaust Createspace Independent Publishing Platform

Whether it's the industrious ant, the breathtaking Monarch butterfly, or the multi-legged centipede, children will discover the fastest, strongest, and most harmful species in DK's *Pocket Genius: Bugs*. Profiling more than 200 insects and bugs, from beetles and butterflies to spiders and scorpions, find out what bugs eat, which are poisonous, which live the longest, and which can be found in your own backyard. Plus, learn about the products we get from bugs, such as honey, ink, silk, and jewelry, and how bugs and insects play important roles in our world. Catalog entries include facts provide at-a-glance information, while locator icons offer immediately recognizable references to aid navigation and understanding, and fact files round off the book with fun facts such as record breakers and timelines. Each mini-encyclopedia is filled with facts on subjects ranging from animals to history, cars to dogs, and Earth to space and combines a child-friendly layout with engaging photography and bite-size chunks of text that will encourage and inform even the most reluctant readers.

A group of poos has been flushed away and embarks on an epic, fun-filled adventure round the world! Search for six very special poos in every scene. From a trip to the aquarium and a day at the theme park, to a rainforest trek and a roller disco, there's so much to spot and find! Search and find titles have rocketed

in popularity in recent years with bestselling titles such as *Where's the Unicorn?* and *Where's the Wookiee?* Our titles focus on popular themes among children with beautiful, full colour illustrations.

Pocket Genius Bugs Bentham Science Publishers

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times. *Masters of Mosaic* Alpha Science Int'l Ltd. *Katie's Cabbage* is the inspirational true story of how Katie Stagliano, a third grader from Summerville, South Carolina, grew a forty-pound cabbage in her backyard and donated it to help feed 275 people at a local soup kitchen. In her own words, Katie shares the story of the little cabbage

seedling and the big ideas of generosity and service that motivated her to turn this experience into *Katie's Krops*, a national youth movement aimed at ending hunger one vegetable garden at a time. *Katie's Cabbage* reminds us of how small things can grow and thrive when nurtured with tender loving and care and of how one person, with the support of family, friends, and community, can help make a powerful difference in the lives of so many. *Katie's Cabbage* was illustrated by Karen Heid, associate professor of art education at the University of South Carolina School of Visual Art and Design. Editorial assistance was provided by Michelle H. Martin, a dedicated gardener and the Augusta Baker Chair in Childhood Literacy at the University of South Carolina School of Library and Information Science. Patricia Moore-Pastides, First Lady of the University of South Carolina and author of *Greek Revival from the Garden: Growing and Cooking for Life*, offers a foreword about her friendship with Katie and her admiration of Katie's dream to end hunger one garden at a time.

Meow Libs Robert Hale

Gerry is a documentary filmmaker who, one day each year, follows five children around with a camera. He shows the results annually on television. Yet for the children who grow up under Gerry's (and the nation's) watchful eye, the experience creates its own dynamic. Are the participants his subjects, his children, or his creations? What responsibility does a storyteller have, to his subjects, his audience, and himself? How much does Gerry take? Does the presence of the camera distort the lives it is supposed to be capturing? Spanning more than twenty years, this play invites you into a world of fractured celebrity and distorted vision. (5 male, 4 female).

Catfantastic Aesculus Press Ltd

The 365-series books are a unique product created keeping in mind the number of days we have in a year. Each book has 365 stories that will encourage children to read at least one story each day, inculcating in them the good habit of book reading. The series is aimed to awaken children towards moral values, cultivate religious beliefs and develop their knowledge of animals in the world. Children are sure to get hooked on the escapades summarized in a lucid manner.

A Man with Five Children Race Point

Publishing

This is the ninth in the 300 series of circuit design books, again contains a wide range of circuits, tips and design ideas. The book has been divided into sections, making it easy to find related subjects in a single category. The book not only details DIY electronic circuits for home construction but also inspiring ideas for projects you may want to design from the ground up. Because software in general and microcontroller programming techniques in particular have become key aspects of modern electronics, a number of items in this book deal with these subjects only. Like its predecessors in the 300 series, "308 Circuits" covers the following disciplines and interest fields of modern electronics: test and measurement, radio and television, power supplies and battery chargers, general interest, computers and microprocessors, circuit ideas and audio and hi-fi.

The Town Of Turtle Silver Rock Publishing

On her fourth Leap birthday, when she turns sixteen, Josie has a number of momentous experiences, including taking her driver's test, auditioning for a school play, and celebrating with her family and friends.
