This is the transcript of a witness seminar held at the British Dental Association in March 2012. It records the changes in the roles of Dental Professionals within the United Kingdom from the start of the National Health Service to the present time. The discussion included a wide range of major participants in the politics, management and practice of Dentistry during this time. It is one of a series of seminars held as part of the John McLean History of Dentistry Archive organised between the British Dental Association and the History of Dentistry Unit at King's College London to study the profession, especially since the time of the establishment of the National Health Service in 1948.

City and Guilds Exam Papers from the Estate of Edgar Williamson Routledge

An essential guide to the City & Guilds 2391-50 and 51: Initial Verification and Certification of Electrical Installation and Periodic Inspection and Testing, also C&G 2391-52: an amalgamation of Initial Verification and Periodic Inspection and Testing of electrical installations. There is a full coverage of technical and legal terminology used in the theory exams; including the structure of exam questions and their interpretation. By running through examples of realistic exam questions in a step-by-step fashion, this book explains how to decode the questions to achieve the most suitable response from the multiple-choice answers given. This book is ideal for all electricians, regardless of their experience, who need a testing qualification in order to take the next step in their career.

During the 1990s, as the Internet in general and e-mail in particular grew in popularity as a means of communication, a number of Cameroonians residing in various parts of the world established a vibrant and lively electronic forum for the discussion of various issues related to their native land. The forum, known as Camnet, demonstrated that Cameroonians living abroad could actively participate in the political, economic and social processes taking place at home. This ability to remain actively engaged in the development of ones nation through the Internet is what Endeley calls virtual activism. Camnet thus distinguished itself as the first and most influential breeding ground for Cameroonian virtual activism. Although Camnet appeared to be dominated by political discussions, it was a truly multi-dimensional forum. No topic was explicitly forbidden and on some occasions the participants conducted extensive debates on issues that had nothing to do with Cameroon or with politics. In this publication, however, the author has chosen to present only a representative sample of his own contributions from the late 1990s with a direct bearing on Cameroons development. Some of the contributions are in French and in order to reflect the bilingual nature of the debates that took place on Camnet, these have not been translated into English. The informed reader will be struck by the issues which were being debated over 15 years ago as well as by the fact that some of the predictions the author made in the 1990s are a reality today.

This popular guide focuses on common misconceptions in the application of the IET Wiring Regulations. It explains in clear language those parts of the regulations that most need simplifying, outlining the correct procedures to follow and those to avoid. Emphasis has been placed on areas where confusion and misinterpretation are common, such as earthing and bonding, circuit design and protection, and in particular the increased use of RCDs. With the coverage carefully matched to the syllabus of the City & Guilds Certificate in the Requirements for Electrical Installations (2382-12 and 2382-15) and containing sample exam questions and answers, this book is also an ideal revision guide.

This book examines women's activism in the early years of independent Indonesia when new attitudes to gender, nationalism, citizenship and democratization were forming. It questions the meaning of democratization for women and their relationship to national sovereignty within the new Indonesian state, and discusses women's organizations and their activities; women's social and economic roles; and the different cultural, regional and ethnic attitudes towards women, while showing the failure of political change to fully address women's gender interests and needs. The author argues that both the role of nationalism in defining gender identity and the role of gender in defining national identity need equal recognition.
