The Big Book of Blob Feelings uses questions linked to specially selected, photocopiable pictures to help you explore feelings with those who struggle to communicate about their emotions. Tried, tested and loved internationally, this inspirational resource includes a wealth of material around: Blob Theory - the feelosophy, our open-question approach and the importance of allowing people to express their choices freely; Emotions - every day we all experience a wide range of feelings, a broad selection of which have been illustrated to kick-start discussions;

Developmental issues - the objective of each of the sheets is to see people of all ages grow in their awareness of who they are, their uniqueness, and how they can develop those gifts further as they share with others. Each picture is accompanied by ideas and questions to kick-start class, group or one-to-one discussion so that everything in the book is relevant to your needs in your setting. The complete book is also included electronically on the accompanying downloadable resources so that you can print and re-use resources as often as you need to. The perfect companion to this book is The Big Book of Blob Feelings 2, which provides a huge range of new material while following the same structure and approach.

This practical, how-to book for beginning seminary students offers step-by-step guidelines for typical writing assignments at the master's level. Chapters are included on the most basic and common types of writing in seminary: theological book reviews, exegetical papers, theological essays or summaries, reflection papers, research papers, and sermons. Practical, immediately relevant topics offer guidelines students can use as soon as they need them--as they begin the research and writing process. The content is accessible to all students, including those with no writing or theological background and second-career students who finished undergraduate study many years prior to entering seminary. Samples of each type of paper are included, with step-by-step commentary to help beginning students understand the process.

Why I Write McFarland

Student teachers face many challenges when they practice teaching in another teacher's classroom. This book aims to assist student teachers to reflect deeply upon their professional practice and broader issues confronting school education.

When Breath Becomes Air Heinemann Educational Books

Volumes in Writing Spaces: Readings on Writing offer multiple perspectives on a wide-range of topics about writing. In each chapter, authors present their unique views, insights, and strategies for writing by addressing the undergraduate reader directly. Drawing on their own experiences, these teachers-as-writers invite students to join in the larger conversation about the

craft of writing. Consequently, each essay functions as a standalone text that can easily complement other selected readings in writing or writing-intensive courses across the disciplines at any level.

One Writer's Beginnings Taylor & Francis

Offering expertise in the teaching of writing (Kim Jaxon) and the teaching of science (Leslie Atkins Elliott and Irene Salter), this book will help instructors create classrooms in which students use writing to learn and think scientifically. The authors provide concrete approaches for engaging students in practices that mirror the work that writing plays in the development and dissemination of scientific ideas, as opposed to replicating the polished academic writing of research scientists. Addressing a range of genres that can help students deepen their scientific reasoning and inquiry, this text includes activities, guidelines, resources, and assessment suggestions. Composing Science is a valuable resource for university-level science faculty, science methods course instructors in teacher preparation programs, and secondary science teachers who have been asked to address the Common Core ELA Standards. Book Features: Provides models for integrating writing into science courses and lesson plans. Focuses on the work that science writing does, both in the development and dissemination of ideas. Addresses the Next Generation Science Standards and the Common Core ELA Standards. Includes samples of student work, classroom transcripts, and photographs that capture the visual elements of science writing. "The pedagogy described in Composing Science doesn't only recapture the sense of the uncertainty of discovery, it also articulates and examines the social and collaborative writing

practices that science uses to produce knowledge and reduce uncertainty. Without question, teachers of science will find this book inspirational and useful, college teachers for sure, but also teachers up and down the curriculum.” —Tom Fox, director, Site Development, National Writing Project “This book will be invaluable, not only for the genuinely new and wonderful ideas for teaching, but also and maybe more for the rich examples from the authors’ classes. Through the lens of writing we see students doing science—and it is truly science—in surprising and delightful ways.” —David Hammer, professor, Tufts University

#### **Teaching Writers to Reflect** Legacy Lit

The Reflective Practice Guide offers an accessible introduction to engaging effectively in critical reflection, supporting all students in their development of the knowledge and skills needed to enhance their professional practice. This second edition has been thoroughly updated with new chapters emphasizing the importance of personal growth, processing emotions, building resilience, and issues of diversity, intersectionality and positionality. Throughout the book Barbara Bassot illustrates the process of critical reflection using examples and case studies drawn from a range of professional contexts, offering an interdisciplinary model of practice that may be applied to many settings. Drawing on literature from a range of disciplines, chapters explore the key aspects of reflection, including: Developing self-awareness The role of writing in reflection Reflecting with others The importance of emotions and processing feelings Managing change Learning from experiences Self-care and avoiding burnout The book is extended and enhanced through Instructor and Student Resources that include

additional content including case studies, reflective activities, diagrams and videos. These can be found at [www.routledge.com/cw/bassot](http://www.routledge.com/cw/bassot). This essential text offers support, guidance and inspiration for all students in the helping professions including education, health, social care and counselling, who want to gain greater self-awareness, challenge assumptions and think about practice on a deeper level.

In this second volume of his long-anticipated five-volume collection of parashat hashavua commentaries, Rabbi Sir Jonathan Sacks explores these intersections as they relate to universal concerns of freedom, love, responsibility, identity, and destiny. Chief Rabbi Sacks fuses Jewish tradition, Western philosophy, and literature to present a highly developed understanding of the human condition under Gods sovereignty. Erudite and eloquent, *Covenant Conversation* allows us to experience Chief Rabbi Sacks sophisticated approach to life lived in an ongoing dialogue with the Torah.

#### Reflection In The Writing Classroom

**Writing Your Way Through College** Reflection In The Writing Classroom Yancey explores reflection as a promising body of practice and inquiry in the writing classroom. Yancey develops a line of research based on concepts of philosopher Donald Schon and others involving the role of deliberative reflection in

classroom contexts. Developing the concepts of reflection-in-action, constructive reflection, and reflection-in-presentation, she offers a structure for discussing how reflection operates as students compose individual pieces of writing, as they progress through successive writings, and as they deliberately review a compiled body of their work—a portfolio, for example. Throughout the book, she explores how reflection can enhance student learning along with teacher response to and evaluation of student writing. Reflection in the Writing Classroom will be a valuable addition to the personal library of faculty currently teaching in or administering a writing program; it is also a natural for graduate students who teach writing courses, for the TA training program, or for the English Education program.

Reflecting on Practice Student teachers face many challenges when they practice teaching in another teacher's classroom. This book aims to assist student teachers to reflect deeply upon their professional practice and broader issues confronting school education. *The Reflective Practice Guide*

Even if your writing workshop hums with the sound of productive work most days, with time carved out for sharing and reflecting, how do you know whether your students are really learning from their writing experiences, or if they're just going through the motions of writing? What if you could teach your students to reflect—in a powerful, deliberate way—throughout the writing process? *Teaching Writers to Reflect* shares a three-step process—remember, describe, act—to help students develop as writers who know for themselves what they are doing and why. The authors argue that teaching the skill of reflection helps students: - Build identities as writers within a community of writers - Learn what to

do when there's a problem in their writing - Make writing skills transferable to more than one writing situation. With specific teaching strategies, examples of student work and stories from their own classrooms, Whitney, McCracken and Washell help you align the work of reflection with your writing workshop structure. After learning to reflect on what they do as writers, students not only can say things about the texts they have written, but also can talk about their own abilities, challenges, and the processes by which they solve writing problems.

"This book is for teachers who want to honor their students' experiences as writers and readers—and their own." -Maja Wilson

In *Reimagining Writing Assessment*, Maja Wilson shows us that by replacing the scales embedded in rubrics with new tools—an array of interpretive lenses designed to observe and describe growth—we can create healthier readers and writers who are more proficient in the long run and more motivated to read and write. She reminds us that "assess" in its Latin derivation means "sit beside." In this book she models new ways of "sitting beside," listening to student stories of the writing, respecting the writer's intentions, and telling stories of our reading. Taking the form of conversations, Maja's new definition of writing assessment is not an outcome or final evaluation: it is an ongoing process in which writers and readers make meaning from texts and attempts, from

intentions and effects. In this process, teachers come to understand how to teach and talk with each student about writing differently. And students learn to understand and take control of their own development as decision-makers.

**Big Book of Blob Feelings** Penguin Modern Classics  
 Volumes in Writing Spaces: Readings on Writing offer multiple perspectives on a wide-range of topics about writing, much like the model made famous by Wendy Bishop's "The Subject Is . . ." series. In each chapter, authors present their unique views, insights, and strategies for writing by addressing the undergraduate reader directly. Drawing on their own experiences, these teachers-as-writers invite students to join in the larger conversation about developing nearly every aspect of craft of writing. Consequently, each essay functions as a standalone text that can easily complement other selected readings in writing or writing-intensive courses across the disciplines at any level. Topics in Volume 1 of the series include academic writing, how to interpret writing assignments, motives for writing, rhetorical analysis, revision, invention, writing centers, argumentation, narrative, reflective writing, Wikipedia, patchwriting, collaboration, and genres.

The Ordinary Leader Heinemann Educational Books  
 In the 21st century, writing is more important than at any other time in human history. Yet much of the emphasis in schooling has been on reading, and after the early years, writing skills have been given less attention. Internationally, too many children are leaving school without the writing skills they need to succeed in life. The evidence indicates that students rarely develop proficiency as writers without effective teacher instruction.

Teaching Writing offers a comprehensive approach for the middle years of schooling, when the groundwork should be laid for the demanding writing tasks of senior school and the workplace. Teaching Writing outlines evidence-based principles of writing instruction for upper primary students and young adolescents. It presents strategies that are ready for adoption or adaptation, and exemplars to assist with designing and implementing writing lessons across the middle years of school. It addresses writing from a multimodal perspective while also highlighting the importance of teaching linguistic aspects of text design such as sentence structure, vocabulary and spelling as foundations for meaning-making. Contributors argue that students need to continue to develop their skills in both handwriting and keyboarding. Examples of the teaching of writing across disciplines are presented through a range of vignettes. Strategies for assessing student writing and for supporting students with diverse needs are also explored. With contributions from leading literacy educators, Teaching Writing is an invaluable resource for primary, secondary and pre-service teachers.

 In this first comprehensive overview of the intersection of immigration law and the First Amendment, a lawyer and historian traces ideological exclusion and deportation in the United States from the Alien Friends Act of 1798 to the evolving policies of the Trump administration. Beginning with the Alien Friends Act of 1798, the United States passed laws in the name of national security to bar or expel foreigners based on their beliefs and associations—although these laws sometimes conflict with First Amendment protections of freedom of speech and association or

contradict America's self-image as a nation of immigrants. The government has continually used ideological exclusions and deportations of noncitizens to suppress dissent and radicalism throughout the twentieth and twenty-first centuries, from the War on Anarchy to the Cold War to the War on Terror. In *In Threat of Dissent*—the first social, political, and legal history of ideological exclusion and deportation in the United States—Julia Rose Kraut delves into the intricacies of major court decisions and legislation without losing sight of the people involved. We follow the cases of immigrants and foreign-born visitors, including activists, scholars, and artists such as Emma Goldman, Ernest Mandel, Carlos Fuentes, Charlie Chaplin, and John Lennon. Kraut also highlights lawyers, including Clarence Darrow and Carol Weiss King, as well as organizations, like the ACLU and PEN America, who challenged the constitutionality of ideological exclusions and deportations under the First Amendment. The Supreme Court, however, frequently interpreted restrictions under immigration law and upheld the government's authority. By reminding us of the legal vulnerability foreigners face on the basis of their beliefs, expressions, and associations, Kraut calls our attention to the ways that ideological exclusion and deportation reflect fears of subversion and serve as tools of political repression in the United States.

Frantz Fanon's seminal work on the trauma of colonization, *The Wretched of the Earth* made him the leading anti-colonialist thinker of the twentieth century. This Penguin Modern Classics edition is translated from the French by Constance Farrington, with an introduction by Jean-Paul Sartre. Written at the height of

the Algerian war for independence from French colonial rule and first published in 1961, Frantz Fanon's classic text has provided inspiration for anti-colonial movements ever since, analysing the role of class, race, national culture and violence in the struggle for freedom. With power and anger, Fanon makes clear the economic and psychological degradation inflicted by imperialism. It was Fanon, himself a psychotherapist, who exposed the connection between colonial war and mental disease, who showed how the fight for freedom must be combined with building a national culture, and who showed the way ahead, through revolutionary violence, to socialism. Many of the great calls to arms from the era of decolonization are now of purely historical interest, yet this passionate analysis of the relations between the great powers and the 'Third World' is just as illuminating about the world we live in today. Frantz Fanon (1925-61) was a Martinique-born French author, essayist, psychoanalyst, and revolutionary. Fanon was a supporter of the Algerian struggle for independence from French rule, and became a member of the Algerian National Liberation Front. He was perhaps the preeminent thinker of the 20th century on the issue of decolonization and the psychopathology of colonization. His works have inspired anti-colonial liberation movements for more than four decades. If you enjoyed *The Wretched of the Earth*, you might like Edward Said's *Orientalism*, also available in Penguin Modern Classics. "A writer needs wide latitude so she can bring all her intelligence

to the task," Ralph observes. "Assigning a particular format -- a hamburger essay, for instance -- would curtail this play, if not eliminate it entirely." That's why, instead of teacher-driven assignments, Joy Write shares the whys and the how of giving students time and autonomy for the playful, low-stakes writing that leads to surprising, high-level growth. First Ralph makes the case for carving out classroom time for low-stakes writing, despite pressure to focus on persuasive essays and test prep. Then he shares five big ideas for choice-driven, authentic, informal writing -- deeply engaging work that kids want to do. He also provides numerous suggestions for helping students build and flex their writing muscles, increase their stamina, and develop passion for expressing themselves with the written word. -- Provided by publisher.

"A single mother's personal, unflinching look at America's class divide (Barack Obama)," this New York Times bestselling memoir is the inspiration for the Netflix limited series, hailed by Rolling

Stone as "a great one." At 28, Stephanie Land's dreams of attending a university and becoming a writer quickly dissolved when a summer fling turned into an unplanned pregnancy. Before long, she found herself a single mother, scraping by as a housekeeper to make ends meet. *Maid* is an emotionally raw, masterful account of Stephanie's years spent in service to upper middle class America as a "nameless ghost" who quietly shared in her clients' triumphs, tragedies, and deepest secrets. Driven to carve out a better life for her family, she cleaned by day and took online classes by night, writing relentlessly as she worked toward earning a college degree. She wrote of the true stories that weren't being told: of living on food stamps and WIC coupons, of government programs that barely provided housing, of aloof government employees who shamed her for receiving what little assistance she did. Above all else, she wrote about pursuing the myth of the American Dream from the poverty line, all the while slashing through deep-rooted stigmas of the working poor. *Maid* is Stephanie's story, but it's not hers alone. It is an inspiring testament to the courage, determination, and ultimate strength of the human spirit. "A single mother's personal, unflinching look at America's class divide, a description of the tightrope many families walk just to get by, and a reminder of the dignity of all work." -PRESIDENT BARACK OBAMA, Obama's Summer Reading List
