Profil Motorbooks International

In this new view of the Citroen story, automotive/aviation writer and design specialist Lance Cole investigates not just the details of the cars of Citroen, but the aeronautical and cultural origins that lay behind Citroen's form and function. The book digs deep into the ethos of Automobiles Citroen to create a narrative on one of the greatest car manufacturers in history. Using interviews, translations, archive documents and specially-commissioned photographs, the Citroen journey is cast in a fresh perspective. It explains in detail the influences upon Citroen design: Voisin, Lefebvre, Bertoni, Boulanger, Mages, Opron and recent Citroen

designers such as Coco, Blakeslee and Soubirou. As well as all the men of the great period of 1920s-1970s expansion, it also cites less well-known names of Citroen's French engineering, design, and influence such as Cayla, Gerin, Giret, Harmand, Dargent and others, to give a full picture of Citroen heritage. The book provides in-depth analysis of all major Citroen models with an engineering and design focus and profiles key individuals and cars up to the present day and Citroen's 'DS'-branded resurgence. It features many newly commissioned photographs, rare archive drawings and interviews with Citroen owners. Researched amongst leading Citroen experts and restorers, Lance Cole provides a fresh perspective on the Citroen car manufacturer, its design language and the legacy of its extraordinary engineering which will be of great interest to all Citroen and motoring enthusiasts. Superbly illustrated with 329 colour photographs, many newly

commissioned along with rare archive drawings.

Mobiles magazine est depuis 1997 le magazine de référence en langue française sur les téléphones mobiles, avec plus de 15.000 pages publiées et 1.000 tests de produits depuis le n°1. Tous les mois, Mobiles magazine décrypte les tendances, teste les nouveaux modèles et apporte à ses lecteurs le meilleur des informations pratiques pour être à la pointe des usages et produits mobiles.

XVI mostra del libro antico Бизнес-журнал, ЗАО

The most radical of Citroen's idiosyncratic offerings, the DS was sensational when it was introduced in 1955. Twenty years and 1.45 million cars later it was still technically advanced to most other cars. Revolutionary in driving characteristics and comfort, it remains one of the most innovative cars of all time.

Citroën Front Wheel Drive "Twelve" and "Fifteen" Models Silver Dolphin Books

When the Citroen DS was unveiled at the 1955 Paris Motor show, it took the motoring world by storm. Its futuristic shape was likened to a space ship and, even 20 years later when it went out of production, it was still one the most visibly and technically advanced cars of its day. In this illustrated history of the car, Malcolm Bobbitt recalls the long career of this extraordinary car and suggests why it became an icon of automobile design. He uses 240 historical photographs to show its long development, starting with the first design studies made before World War II and the first prototype of 1952. The book chronicles the production history of the DS and its less sophisticated sister car, the ID, and it seeks to explain the many facets of this complex, idiosyncratic vehicle. The author also describes how this reliable family saloon proved to be a formidable rally contender and, for a generation, provided formal transport for the French president and government.

Veja Haynes Publishing

Available again after a long absence, this book tells the story of the most radical of Citroën's idiosyncratic offerings: the DS. The car was sensational when it was introduced in 1955; twenty years and 1.45 million cars later it was still technically advanced in relation to most other cars. Revolutionary in driving characteristics and comfort, it remains one of the most innovative cars of all time. In this book, Malcolm Bobbitt, a well-known motoring author and DS owner, gives an in-depth guide to the Citroën DS - its history, design, and specifications, as well as valuable advice for buyers and owners. This long overdue revised

edition contains much new and updated information.

Citroën DS Bloomsbury Publishing

This volume traces the history of the Citroen DS, a car which was both revolutionary and highly popular, startling motoring journalists of the time with its dramatically streamlined body and remarkable hydro-pneumatic self-levelling suspension. It takes a visual tour around surviving examples of the widely-differing models produced, from the basic ID to the luxurious Pallas.

How have architecture and design been represented in popular culture? How do these fictional reflections feed back into and influence 'the real world'? Archi.Pop: Architecture and Design in Popular Culture offers the first contemporary critical overview of this diverse and intriguing relationship in cultural forms including television, cinema, iconic buildings and everyday interiors, music and magazines. Bringing the study of architecture and culture firmly to the contemporary world, Archi.Pop offers a unique critical investigation into how this dynamic relationship has

shaped the way we live and the way we interact with the constructed world around us.

Shane Lockwood is lucky and he knows it. He's only a teenager, but considered a talented violinist whom the world adores. At the end of a successful concert tour in Venice, however, someone steals his precious violin. Then he starts receiving menacing phone calls, demanding a favor in exchange for his life. Amidst these murderous threats, Shane meets beautiful student, Laurie Carson, and falls head over heels in love. Then a dark question

surfaces: could she be involved in this nightmare? As Shane desperately looks for answers, he is thrust into a world where danger lurks around every gondola--and where star-crossed love could turn quite sharply into double-crossed death....
