Learning From Strangers The Art And Method Of Qualitative Interview Studies

Downloaded from inspiringabstinence.com by guest

YARELI ALISSON

Salsa Dancing into the Social Sciences Simon and Schuster
 An entertaining, surprising, and ultimately inspiring look at what happens when we talk to strangers, and why it affects everything from our own health and well-being to the rise and fall of nations in the tradition of Susan Cain's *Quiet* and Yuval Noah Harari's *Sapiens* "This lively, searching work makes the case that welcoming 'others' isn't just the bedrock of civilization, it's the surest path to the best of what life has to offer."—Ayad Akhtar, Pulitzer Prize-winning author of *Homeland Elegies* In our cities, we stand in silence at the pharmacy and in check-out lines at the grocery store, distracted by our phones, barely acknowledging one another, even as rates of loneliness skyrocket. Online, we retreat into ideological silos reinforced by algorithms designed to serve us only familiar ideas and like-minded users. In our politics, we are increasingly consumed by a fear of people we've never met. But what if strangers—so often blamed for our most pressing political, social, and personal problems—are actually the solution? In *The Power of Strangers*, Joe Keohane sets out on a journey to discover what happens when we bridge the distance between us and people we don't know. He learns that while we're wired to sometimes fear, distrust, and even hate strangers, people and societies that have learned to connect with strangers benefit immensely. Digging into a growing body of cutting-edge research on the surprising social and psychological benefits that come from talking to strangers, Keohane finds that even passing interactions can enhance empathy, happiness, and cognitive development, ease loneliness and isolation, and root us in the world, deepening our sense of belonging. And all the while, Keohane gathers practical tips from experts on how to talk to strangers, and tries them out himself in the wild, to awkward, entertaining, and frequently poignant effect. Warm, witty, erudite, and profound, equal parts sweeping history and self-help journey, this deeply researched book will inspire readers to see everything—from major geopolitical shifts to trips to the corner store—in an entirely new light, showing them that talking to strangers isn't just a way to live; it's a way to survive.

What I Learned Traveling America with a Typewriter Penguin
 Argues for the practice of talking to strangers as a way of widening one's experience of the world, addressing the transformative possibilities as well as the political and practical considerations of engaging with strangers in public.
Face to Face Subplot
 In *Abductive Analysis*, Iddo Tavory and Stefan Timmermans provide a new navigational map for theorizing qualitative

research. They outline a way to think about observations, methods, and theories that nurtures theory formation without locking it into predefined conceptual boxes. The book provides novel ways to approach the challenges that plague qualitative researchers across the social sciences—how to conceptualize causality, how to manage the variation of observations, and how to leverage the researcher's community of inquiry. *Abductive Analysis* is a landmark work that shows how a pragmatist approach provides a productive and fruitful way to conduct qualitative research.

Strangers in Their Own Land Simon and Schuster
 From the USA TODAY bestselling author of *Sweet Thing and Nowhere But Here* comes a love story about a Craigslist "missed connection" post that gives two people a second chance at love fifteen years after they were separated in New York City. To the Green-eyed Lovebird: We met fifteen years ago, almost to the day, when I moved my stuff into the NYU dorm room next to yours at Senior House. You called us fast friends. I like to think it was more. We lived on nothing but the excitement of finding ourselves through music (you were obsessed with Jeff Buckley), photography (I couldn't stop taking pictures of you), hanging out in Washington Square Park, and all the weird things we did to make money. I learned more about myself that year than any other. Yet, somehow, it all fell apart. We lost touch the summer after graduation when I went to South America to work for National Geographic. When I came back, you were gone. A part of me still wonders if I pushed you too hard after the wedding... I didn't see you again until a month ago. It was a Wednesday. You were rocking back on your heels, balancing on that thick yellow line that runs along the subway platform, waiting for the F train. I didn't know it was you until it was too late, and then you were gone. Again. You said my name; I saw it on your lips. I tried to will the train to stop, just so I could say hello. After seeing you, all of the youthful feelings and memories came flooding back to me, and now I've spent the better part of a month wondering what your life is like. I might be totally out of my mind, but would you like to get a drink with me and catch up on the last decade and a half? M

The Fine Art Of Small Talk SAGE Publications
 Featured on CBS This Morning, Squawk Box, MSNBC, CNN, Bloomberg, Forbes, Fast Company, The New York Times, and more. "Reading *Face to Face* is like being a fly on the wall, watching Brian Grazer work his magic. Utterly entertaining, this is how you become Hollywood's best producer." —Malcolm Gladwell, author of *Talking to Strangers* Legendary Hollywood producer and author of the bestselling *A Curious Mind*, Brian Grazer is back with a captivating new book about the life-changing ways we can connect with one another. Much of Brian Grazer's success—as a #1 New York Times bestselling author,

Academy Award-winning producer, father, and husband—comes from his ability to establish genuine connections with almost anyone. In *Face to Face*, he takes you around the world and behind the scenes of some of his most iconic movies and television shows, like *A Beautiful Mind*, *Empire*, *Arrested Development*, *American Gangster*, and *8 Mile*, to show just how much in-person encounters have revolutionized his life—and how they have the power to change yours. With his flair for intriguing stories, Grazer reveals what he's learned through interactions with people like Bill Gates, Taraji P. Henson, George W. Bush, Barack Obama, Eminem, Prince, Spike Lee, and the Afghani rapper activist Sonita: that the secret to a bigger life lies in personal connection. In a world where our attention is too often focused downward at our devices, Grazer argues that we are missing an essential piece of the human experience. Only when we are face to face, able to look one another in the eyes, can we form the kinds of connections that expand our world views, deepen our self-awareness, and ultimately lead to our greatest achievements and most meaningful moments. When we lift our eyes to look at the person in front of us, we open the door to infinite possibility.

The Art of Saying No Prestel Pub
 With the intrigue of a psychological thriller, Camus's masterpiece gives us the story of an ordinary man unwittingly drawn into a senseless murder on an Algerian beach. Behind the intrigue, Camus explores what he termed "the nakedness of man faced with the absurd" and describes the condition of reckless alienation and spiritual exhaustion that characterized so much of twentieth-century life. First published in 1946; now in translation by Matthew Ward.

A Handbook for Living Hachette UK
 The National Book Award Finalist and New York Times bestseller that became a guide and balm for a country struggling to understand the election of Donald Trump "A generous but disconcerting look at the Tea Party. . . . This is a smart, respectful and compelling book." —Jason DeParle, The New York Times Book Review When Donald Trump won the 2016 presidential election, a bewildered nation turned to *Strangers in Their Own Land* to understand what Trump voters were thinking when they cast their ballots. Arlie Hochschild, one of the most influential sociologists of her generation, had spent the preceding five years immersed in the community around Lake Charles, Louisiana, a Tea Party stronghold. As Jedediah Purdy put it in the *New Republic*, "Hochschild is fascinated by how people make sense of their lives. . . . [Her] attentive, detailed portraits . . . reveal a gulf between Hochschild's 'strangers in their own land' and a new elite." Already a favorite common read book in communities and on campuses across the country and called "humble and important" by David Brooks and "masterly" by Atul Gawande, Hochschild's book has

been lauded by Noam Chomsky, New Orleans mayor Mitch Landrieu, and countless others. The paperback edition features a new afterword by the author reflecting on the election of Donald Trump and the other events that have unfolded both in Louisiana and around the country since the hardcover edition was published, and also includes a readers' group guide at the back of the book.

Slow Looking Harvard University Press

Presents a collection of art and personal stories taken from the author's Web site in which participants respond to a variety of artistic assignments, including "Take a flash photo under your bed," "Write your life story in less than a day," and "Make an encouraging banner."

Black Like Me HarperCollins

On Looking begins with inattention. It is about attending to the joys of the unattended, the perceived 'ordinary.' Horowitz encourages us to rediscover the extraordinary things that we are missing in our ordinary activities. Even when engaged in the simplest of activities like taking a walk around the block, we pay so little attention to most of what is right before us that we are sleepwalkers in our own lives.

Learning From Strangers The Art and Method of Qualitative Interview Studies

The Second Edition of 30 Essential Skills for the Qualitative Researcher provides practical, applied information for the novice qualitative researcher, addressing the "how" of conducting qualitative research in one brief guide. Author John W. Creswell and new co-author Johanna Creswell Báez draw on many examples from their own research experiences, sharing them throughout the book. The 30 listed skills are competencies that can help qualitative researchers conduct more thorough, more rigorous, and more efficient qualitative studies. Innovative chapters on thinking like a qualitative research and engaging with the emotional side of doing qualitative research go beyond the topics of a traditional research methods text and offer crucial support for qualitative practitioners. By starting with a strong foundation of a skills-based approach to qualitative research, readers can continue to develop their skills over the course of a career in research. This revised edition updates skills to follow the research process, using new research from a wide variety of disciplines like social work and sociology as examples. Chapters on research designs now tie back explicitly to the five approaches to qualitative research so readers can better integrate their new skills into these designs. Additional figures and tables help readers better visualize data collection through focus groups and interviews and better organize and implement validity checks. The new edition provides further examples on how to incorporate reflexivity into a study, illuminating a challenging aspect of qualitative research. Information on writing habits now addresses co-authorship and provides more context and variation from the two authors.

Master business modeling and analysis techniques with Microsoft Excel 2019 and Office 365 and transform data into bottom-line results. Written by award-winning educator Wayne Winston, this hands-on, scenario-focused guide helps you use Excel to ask the right questions and get accurate, actionable answers. New coverage ranges from Power Query/Get & Transform to Office 365 Geography and Stock data types. Practice with more than 800 problems, many based on actual challenges faced by working analysts. Solve real business problems with Excel—and build your competitive advantage: Quickly transition from Excel basics to sophisticated analytics Use PowerQuery or Get & Transform to connect, combine, and refine data sources Leverage Office 365's new Geography and Stock data types and six new functions Illuminate insights from geographic and temporal data with 3D Maps Summarize data with pivot tables, descriptive statistics, histograms, and Pareto charts Use Excel trend curves, multiple regression, and exponential smoothing Delve into key financial, statistical, and time functions Master all of Excel's great charts Quickly create forecasts from historical time-based data Use Solver to optimize product mix, logistics, work schedules, and investments—and even rate sports teams Run Monte Carlo simulations on stock prices and bidding models Learn about basic

probability and Bayes' Theorem Use the Data Model and Power Pivot to effectively build and use relational data sources inside an Excel workbook Automate repetitive analytics tasks by using macros

How to start a conversation in any situation Tells Peak Press

"Highly entertaining." —Adam Gopnik, The New Yorker "Funny, curious, erudite, and full of useful details about ancient techniques of training memory." —The Boston Globe The blockbuster phenomenon that charts an amazing journey of the mind while revolutionizing our concept of memory An instant bestseller that is poised to become a classic, Moonwalking with Einstein recounts Joshua Foer's yearlong quest to improve his memory under the tutelage of top "mental athletes." He draws on cutting-edge research, a surprising cultural history of remembering, and venerable tricks of the mentalists' trade to transform our understanding of human memory. From the United States Memory Championship to deep within the author's own mind, this is an electrifying work of journalism that reminds us that, in every way that matters, we are the sum of our memories.

Abductive Analysis Jossey-Bass

A down-to-earth, practical guide for interview and participant observation and analysis. In-depth interviews and close observation are essential to the work of social scientists, but inserting one's researcher-self into the lives of others can be daunting, especially early on. Esteemed sociologist Annette Lareau is here to help. Lareau's clear, insightful, and personal guide is not your average methods text. It promises to reduce researcher anxiety while illuminating the best methods for first-rate research practice. As the title of this book suggests, Lareau considers listening to be the core element of interviewing and observation. A researcher must listen to people as she collects data, listen to feedback as she describes what she is learning, listen to the findings of others as they delve into the existing literature on topics, and listen to herself in order to sift and prioritize some aspects of the study over others. By listening in these different ways, researchers will discover connections, reconsider assumptions, catch mistakes, develop and assess new ideas, weigh priorities, ponder new directions, and undertake numerous adjustments—all of which will make their contributions clearer and more valuable. Accessibly written and full of practical, easy-to-follow guidance, this book will help both novice and experienced researchers to do their very best work. Qualitative research is an inherently uncertain project, but with Lareau's help, you can alleviate anxiety and focus on success.

The Art of Asking Simon and Schuster

Through conversations, stories, and meditations, the Dalai Lama shows us how to defeat day-to-day anxiety, insecurity, anger, and discouragement. Together with Dr. Howard Cutler, he explores many facets of everyday life, including relationships, loss, and the pursuit of wealth, to illustrate how to ride through life's obstacles on a deep and abiding source of inner peace. Based on 2,500 years of Buddhist meditations mixed with a healthy dose of common sense, THE ART OF HAPPINESS is a book that crosses the boundaries of traditions to help readers with difficulties common to all human beings. After being in print for ten years, this book has touched countless lives and uplifted spirits around the world.

The Art and Science of Remembering Everything University of Chicago Press

"Know thyself," a precept as old as Socrates, is still good advice. But is introspection the best path to self-knowledge? Wilson makes the case for better ways of discovering our unconscious selves. If you want to know who you are or what you feel or what you're like, Wilson advises, pay attention to what you actually do and what other people think about you. Showing us an unconscious more powerful than Freud's, and even more pervasive in our daily life, Strangers to Ourselves marks a revolution in how we know ourselves.

The Art and Method of Qualitative Interview Studies University of Chicago Press

FOREWORD BY BRENE BROWN and POSTSCRIPT FROM BRAIN PICKINGS CREATOR MARIA POPOVA Rock star, crowdfunding pioneer, and TED speaker Amanda Palmer knows all about asking. Performing as a living statue in a wedding dress, she wordlessly

asked thousands of passersby for their dollars. When she became a singer, songwriter, and musician, she was not afraid to ask her audience to support her as she surfed the crowd (and slept on their couches while touring). And when she left her record label to strike out on her own, she asked her fans to support her in making an album, leading to the world's most successful music Kickstarter. Even while Amanda is both celebrated and attacked for her fearlessness in asking for help, she finds that there are important things she cannot ask for—as a musician, as a friend, and as a wife. She learns that she isn't alone in this, that so many people are afraid to ask for help, and it paralyzes their lives and relationships. In this groundbreaking book, she explores these barriers in her own life and in the lives of those around her, and discovers the emotional, philosophical, and practical aspects of THE ART OF ASKING. Part manifesto, part revelation, this is the story of an artist struggling with the new rules of exchange in the twenty-first century, both on and off the Internet. THE ART OF ASKING will inspire readers to rethink their own ideas about asking, giving, art, and love.

Toward a Sociology of Algorithms Harvard University Press

A handbook for independent learners based on 100 ethnographic interviews, with guidance, how-to, and interviewee stories.

The Art of Human Connection Microsoft Press

It's the 1980s, and art historian Claire Markham reels from a series of heartbreaking losses. Desperate to escape her shattered reality, she becomes an art guide in Europe for quirky stranger Viv Chancey and embarks on a life-changing journey through the art-filled cities of Milan, Venice, Ravenna, Florence, Siena, Rome, and Paris. Once abroad, Claire tries to hide her woes by focusing on Viv's art education, but Viv—who is not who she seems—has a different learning experience in mind. Frustrated and wanting to reimagine her life, Claire embraces the idea of reality as illusion and finds herself slipping into the tales of art and history. When threatened with one more crushing loss, Claire must learn from the spirit of her eccentric companion and the lessons from the art they encounter to take charge of her life or lose the most precious thing in it. The Art of Traveling Strangers is a journey of self-discovery and personal empowerment inspired by the great art masterpieces of Italy and France. It's a tale of female bonding and the amazing powers of perception. After all, reality, like art, is just an illusion.

The Art and Practice of Learning Through Observation

Grand Central Publishing

The Art of Self-Directed Learning is a collection of 23 stories and insights that will help you become a more motivated and self-guided learner. Drawing on a decade of research, adventures, and interviews conducted by Blake Boles (author of College Without High School and Better Than College), this book will inspire you to craft your own unconventional education, no matter whether you're a young adult, recent graduate, parent, or simply someone who never wants to stop learning. Each chapter is brief, story-oriented, and accompanied by an original line drawing, making The Art of Self-Directed Learning a great choice for readers and "non-readers" alike.

The Keys to Success and Long-Term Fulfillment Grand

Central Publishing

Do you spend an abnormal amount of time hiding in the bathroom or hanging around the buffet table at social gatherings? Does the thought of striking up a conversation with a stranger make your stomach do flip-flops? Do you sit nervously through job interviews waiting for the other person to speak? Are you nervous when it comes to networking? Then it's time you mastered The Fine Art of Small Talk. With practical advice and conversation 'cheat sheets,' The Fine Art of Small Talk will help you learn to feel more comfortable in any type of social situation, from lunch with your boss to going out on a date to a cocktail party where you don't know a soul. The Fine Art of Small Talk teaches you how to: - Start a conversation even when you think you have nothing to say - Steady your shaky knees and dry your sweaty palms - Prevent awkward pauses and lengthy silences - Adopt listening skills that will make you a better conversationalist - Approach social functions with confidence - Feel more at ease at parties, meetings and at job interviews - Turn every conversation into an opportunity for success
