Threads of seven

the great prairie. What
is it? It runs through
the valleys clapping its
hands. "Rainbow" and
"butterfly" are the
answers to these two

Native American
riddles, typically drawn
from the world of
nature. Long hidden
from view, the
American Indian
riddling tradition is
revealed in all its
variety in this carefully
researched collection --
the first of its kind --
presenting 140 riddles
translated from twenty
different languages,
including Aztec,

Comanche, Maya, Onondaga, Pawnee, and Quechua. Here are examples of courtship riddling, hunter's riddling, dream-guessing, life-or-death riddling, and story riddling. In his introductory essay, editor John Bierhorst shows how such "games" are linked to the life and customs of the people who originated them. He also offers pointers to help non-Indian guessers come up with the right answers. With sweeping strokes and deft touches of humor, Louise Brierley's illustrations capture the spirit of mystery and inventiveness characteristic of this most unusual, most unexpected of Native American traditions. Aleya's world starts to unravel after a café customer leaves behind a collection of short stories. Surprised and disturbed to discover that it has been dedicated to her, Aleya delves into the strange book... A mad scientist seeks to steal his son's dreams. A struggling writer, skilled only at destruction, finds himself courted by Hollywood. A woman seeks to escape her body and live inside her dreams. Citizens panic when a new city block manifests out of nowhere. The personification of capitalism strives to impress his cutthroat boss. The more Aleya reads, the deeper she sinks into the mysterious writer's work, and the less real the world around her

seems. Soon, she's overwhelmed as a new, more terrifying existence takes hold. The Lightning of Possible Storms blends humour and horror, doom and daylight, offering myriad possible storms. Praise for Jonathan Ball: "Cheerfully horrifying, and full of the unexpected, The Lightning of Possible Storms is an entertaining Borgesian foray into the existential dread of writing itself." -- Saleema Nawaz, author of Songs for the End of the World "This collection is so beautifully written and expertly composed--it is rich, layered, and complex. In every story, characters are forced to confront their secret, subterranean selves, their

suppressed longings and anxieties, and the stories will linger with you long after you've finished them, much like the last strains of a beloved song. Witty, sad, sardonic, each story is its own masterpiece. This collection confirms Jonathan Ball as one of Canada's very best writers." --Suzette Mayr, author of *Dr. Edith Vane and the Hares of Crawley Hall* Spectrum Science, Grade 3 Little, Brown Spark

The #1 New York Times Bestseller | Now a series on Disney+
12-year-old Percy Jackson discovers he is the son of Poseidon in the opener to the hilarious, fast-paced

adventure fantasy series for young readers ages 10 and up The eBook edition of the first book in Rick Riordan's thrilling series, filled with magic, mythology, and plenty of monsters Percy Jackson is about to be kicked out of boarding school again—he can't seem to stay out of trouble. Is he supposed to stand by while a bully picks on his scrawny best friend? Or not defend himself when his teacher turns into a monster and tries to kill him? Mythical creatures seem to be walking straight out of the pages of Percy's Greek mythology textbook and into his life. What's worse, he's angered a few of them: Zeus's master lightning bolt has been stolen, and Percy is the prime

suspect. Percy and his friends Grover the satyr, and Annabeth, the demigod daughter of Athena, must find and return Zeus's stolen property and bring peace to a warring Mount Olympus. They travel cross country to the gates of the Underworld in Los Angeles, facing a host of enemies determined to stop them.

With millions of copies and over 10 years spent on the New York Times bestseller list, Percy has also become a movie, a Broadway musical, and now a Disney+ series. He continues to find fans in classrooms and libraries across the world.

Seven Surrenders

Lightning Inside You
From the acclaimed author of "the most

compelling new series in crime fiction" (Michael Koryta, New York Times bestselling author) comes "a sharply observed novel" (New York Times) that explores race, law enforcement, and justice in mid-century Atlanta. Officer Denny Rakestraw and "Negro Officers" Lucius Boggs and Tommy Smith have their hands full in an overcrowded and rapidly changing Atlanta. It's 1950 and racial tensions are simmering as black families, including Smith's sister, begin moving into formerly all-white neighborhoods. When Rake's brother-in-law launches a scheme to rally the Ku Klux Klan to "save" their neighborhood, his efforts spiral out of control, forcing Rake to

choose between loyalty to family or the law. Across town, Boggs and Smith try to shut down the supply of white lightning and drugs into their territory, finding themselves up against more powerful foes than they'd expected. Battling corrupt cops and ex-cons, Nazi brown shirts and rogue Klansmen, the officers are drawn closer to the fires that threaten to consume the city once again. With echoes of Walter Mosley and Dennis Lehane, Mullen "expands the boundaries of crime fiction, weaving in eye-opening details from our checkered history" (*Chicago Tribune*). *How Ben Franklin Stole the Lightning* Penguin From the New York Times–bestselling author David

Duchovny, an epic adventure that asks how we make sense of right and wrong in a world of extremes For the past twenty years, Bronson Powers, former Hollywood stuntman and converted Mormon, has been homesteading deep in the uninhabited desert outside Joshua Tree with his three wives and ten children. Bronson and his wives, Yalulah, Mary, and Jackie, have been raising their family away from the corruption and evil of the modern world. Their insular existence—controversial, difficult, but Edenic—is upended when the ambitious young developer Maya Abbadessa stumbles upon their land. Hoping to make a profit, she

crafts a wager with the family that sets in motion a deadly chain of events. Maya, threatening to report the family to social services, convinces them to enter three of their children into a nearby public school. Bronson and his wives agree that if Maya can prove that the kids do better in town than in their desert oasis, they will sell her a chunk of their priceless plot of land. Suddenly confronted with all the complications of the twenty-first century that they tried to keep out of their lives, the Powerses must reckon with their lifestyle as they try to save it. Truly Like Lightning, David Duchovny's fourth novel, is a heartbreaking meditation on family, religion, sex, greed,

human nature, and the vanishing environment of an ancient desert. Lightning Men Yearling When lightning strikes there can only be trouble - as Jessica Mastriani finds out when she and best friend Ruth get caught in a thunderstorm. Not that Jess has ever really avoided trouble before. Instead of cheerleading there are fistfights with the football team and monthlong stints in detention - not that detention doesn't have its good points - like sitting next to Rob - the cutest senior around! But this is trouble with a capital T - this trouble is serious. Because somehow on that long walk home in the thunderstorm, Jess acquired a new found talent. An amazing power that can be used

for good. . . or for evil.

Because of this, readers will be required to zoom in on each page to read the text and see the finer detail of the artwork. [It has not been optimized for devices that display only in black and white.] From the National Book Award finalist Lauren Redniss, author of *Radioactive*, comes a dazzling fusion of storytelling, visual art, and reportage that grapples with weather in all its dimensions: its danger and its beauty, why it happens and what it means. WINNER OF THE PEN/E. O. WILSON LITERARY SCIENCE WRITING AWARD • NAMED ONE OF THE BEST BOOKS

OF THE YEAR BY SAN FRANCISCO CHRONICLE, KIRKUS REVIEWS, AND SHELF AWARENESS Weather is the very air we breathe—it shapes our daily lives and alters the course of history. In *Thunder & Lightning*, Lauren Redniss tells the story of weather and humankind through the ages. This wide-ranging work roams from the driest desert on earth to a frigid island in the Arctic, from the Biblical flood to the defeat of the Spanish Armada. Redniss visits the headquarters of the National Weather Service, recounts top-secret rainmaking operations during the Vietnam War, and examines the economic impact of disasters like Hurricane Katrina. Drawing on

extensive research and countless interviews, she examines our own day and age, from our most personal decisions—Do I need an umbrella today?—to the awesome challenges we face with global climate change. Redniss produced each element of *Thunder & Lightning*: the text, the artwork, the covers, and every page in between. She created many of the images using the antiquated printmaking technique copper plate photogravure etching. She even designed the book's typeface. The result is a book unlike any other: a spellbinding combination of storytelling, art, and science. Praise for *Thunder & Lightning* “[An] aesthetically

charged and deeply researched account . . . a wild rainstorm of a book, pelting the reader with ideas and inspiration.”—Nature “A gorgeous and illuminating illustrated study of weather in all its tempestuous variety . . . Redniss’s combo of fact, folklore, and vibrant etched copperplate prints enthralls.”—O: The Oprah Magazine “Eerily beautiful . . . Contains plenty of scientific explanation (including more than a few nods toward global warming), but also far-flung personal stories that illuminate the beauty, wonder and chaos inherent in the elements.”—The New York Times “Magical . . . Redniss has . . . shown us how human beings live with nature—fighting,

coexisting, taming, predicting via leech barometer and radar and intuition.”—The New York Times Book Review “[A] twenty-first-century genius . . . The reader willing to put herself fully in Redniss’s hands will be rewarded with a delicious feeling of being enveloped by a phenomenon that eclipses the chiming trivialities of daily life.”—Elle “Redniss is one of the most creative science writers of our time—her combination of beautiful artwork, reporting, and poetic prose brings science to life in ways that words alone simply cannot.”—Rebecca Skloot “Redniss combines her own dual punch of expressive art and impressive erudition to give an

entirely new take on all that happens above our heads.”—Adam Gopnik “A strange and wonderful thing, the work of a first-class mind that refuses to submit to any categories or precedent.”—Dave Eggers

Lightning Inside You

Simon and Schuster

An iconic novel from a rebellious and politically active author, this story follows Jack, a sculptor and blacksmith, who idolizes the Biblical Samson as a figure of man’s independence. Deciding to carve a mahogany tribute to Samson, however, becomes a more complicated affair when Jack’s wife leaves him for another man. The end result is a sculpture of a blinded Samson leaning on a

young boy for support. As life imitates art, Jack is struck by lightning and left blind, forcing him to rely on his friends to survive. After leading him on a journey to discover just how reliant on humanity he really is, Jack’s blindness ultimately drives him to his final act of independence: his own suicide.

Ben Folds comes a

memoir that is as

nuanced, witty, and

relatable as his cult-

classic songs. “A

Dream About Lightning

Bugs reads like its

author: intelligent,

curious,

unapologetically punk,

and funny as

hell.”—Sara Bareilles

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR AND PASTE Ben Folds is a celebrated American singer-songwriter, beloved for songs such as “Brick,” “You Don’t Know Me,” “Rockin’ the Suburbs,” and “The Luckiest,” and is the former frontman of the alternative rock band Ben Folds Five. But Folds will be the first to tell you he’s an unconventional icon, more normcore than hardcore. Now, in his first book, Folds looks back at his life so far in a charming and wise chronicle of his artistic coming of age, infused with the wry observations of a natural storyteller. In the title chapter, “A Dream About Lightning Bugs,” Folds recalls his earliest childhood dream—and realizes

how much it influenced his understanding of what it means to be an artist. In “Measure Twice, Cut Once” he learns to resist the urge to skip steps during the creative process. In “Hall Pass” he recounts his 1970s North Carolina working-class childhood, and in “Cheap Lessons” he returns to the painful life lessons he learned the hard way—but that luckily didn’t kill him. In his inimitable voice, both relatable and thought-provoking, Folds digs deep into the life experiences that shaped him, imparting hard-earned wisdom about both art and life. Collectively, these stories embody the message Folds has been singing about for years: Smile like you’ve got nothing to

prove, because it hurts to grow up, and life flies by in seconds. Praise for A Dream About Lightning Bugs “Besides being super talented, and an incredibly poignant and multifaceted musician, Ben Folds is a fantastic author. I couldn’t put this book down—and not just because I taped it to my hand. Ben takes us into his mind and into his process from the very beginnings of his childhood to where he is today—one of the greatest musicians and writers that has ever graced the art.”—Bob Saget

Is middle school drama scarier than an asteroid heading for Earth? Find out in this smart and funny novel

by the author of The Miscalculations of Lightning Girl. Every day in middle school can feel like the end of the world. Eleanor Dross knows a thing or two about the end of the world, thanks to a survivalist grandfather who stockpiles freeze-dried food and supplies--just in case. So when she reads about a Harvard scientist's prediction that an asteroid will strike Earth in April, Eleanor knows her family will be prepared. Her classmates? They're on their own! Eleanor has just one friend she wants to keep safe: Mack. They've been best friends since kindergarten, even though he's more of a smiley emoji and she's more of an eye-roll emoji. They'll survive

the end of the world together . . . if Mack doesn't go away to a special school for the blind. But it's hard to keep quiet about a life-destroying asteroid--especially at a crowded lunch table--and soon Eleanor is the president of the (secret) End of the World Club. It turns out that prepping for TEOTWAWKI (the End of the World as We Know It) is actually kind of fun. But you can't really prepare for everything life drops on you. And one way or another, Eleanor's world is about to change.

National Geographic Books

Ben Franklin was the most famous American in the entire world

during colonial times. No wonder! After all, the man could do just about anything. Why, he was an author and an athlete and a patriot and a scientist and an inventor to boot. He even found a way to steal the lightning right out of the sky. Is such a thing possible? Is it. Take a look inside and find Ben busy at work on every spread. Then find out how he used his discovery about lightning to make people's lives safer. In an inventive way, Rosalyn Schanzer brings us a brilliant and ever-curious American original.

Lightning in a Mirror

Harper Collins

The long-awaited second novel by the author of “arguably the most exciting debut novel of the decade: The Last Samurai.”

(Sam Anderson, New York). “All I want is to be a success. That’s all I ask.” Joe fails to sell a single set of the Encyclopedia Britannica in six months. Then fails to sell a single Electrolux and must eat 126 pieces of homemade pie, served up by his would-be customers who feel sorry for him. Holed up in his trailer, Joe finds an outlet for his frustrations in a series of ingenious sexual fantasies, and at last strikes gold. His brainstorm, Lightning Rods, Inc., will take Joe to the very top — and to the very heart of corporate insanity — with an outrageous solution to the spectre of sexual harassment in the modern office. An uproarious, hard-boiled modern fable of corporate life, sex, and

race in America, Helen DeWitt’s *Lightning Rods* brims with the satiric energy of Nathanael West and the philosophic import of an Aristophanic comedy of ideas. Her wild yarn is second cousin to the spirit of Mel Brooks and the hilarious reality-blurring of *Being John Malkovich*. Dewitt continues to take the novel into new realms of storytelling — as the timeliness of *Lightning Rods* crosses over into timelessness.

When Lightning Comes in a Jar Penguin

From the winner of the 2017 John W. Campbell Award for Best New Writer, Ada Palmer’s 2017 Compton Crook Award-winning political science fiction, *Too Like the Lightning*, ventures into a human future of extraordinary

originality Mycroft Canner is a convict. For his crimes he is required, as is the custom of the 25th century, to wander the world being as useful as he can to all he meets. Carlyle Foster is a sensayer--a spiritual counselor in a world that has outlawed the public practice of religion, but which also knows that the inner lives of humans cannot be wished away. The world into which Mycroft and Carlyle have been born is as strange to our 21st-century eyes as ours would be to a native of the 1500s. It is a hard-won utopia built on technologically-generated abundance, and also on complex and mandatory systems of labelling all public writing and speech. What seem to

us normal gender distinctions are now distinctly taboo in most social situations. And most of the world's population is affiliated with globe-girdling clans of the like-minded, whose endless economic and cultural competition is carefully managed by central planners of inestimable subtlety. To us it seems like a mad combination of heaven and hell. To them, it seems like normal life. And in this world, Mycroft and Carlyle have stumbled on the wild card that may destabilize the system: the boy Bridger, who can effortlessly make his wishes come true. Who can, it would seem, bring inanimate objects to life... Terra Ignota 1. Too Like the Lightning 2. Seven Surrenders 3. The Will

This is the first comprehensive firefly guide for eastern and central North America ever published. It is written for all those who want to know more about the amazing world of lightning bugs and learn the secrets hidden in the flash patterns of the 75+ species found in the eastern and central U.S. and Canada. As an independent researcher working with numerous university teams, naturalist Lynn Frierson Faust, "The Lightning Bug Lady," has spent decades tracking the behavior and researching the habitats of these fascinating creatures.

Based on her twenty-five years of field work, this book is intended to increase understanding and appreciation of bioluminescent insects while igniting enthusiasm in a fun and informative way. Species accounts are coupled with historical background and literary epigraphs to engage and draw readers young and old into the world of these tiny sparklers. A chart documenting the flash patterns of the various species will aid in identification. Clear photos illustrate the insects' distinguishing physical characteristics, while habitats, seasonality, and common names are provided in clear, easy-to-understand yet scientifically accurate language. The guide will be welcomed by

everyone who wants to learn more about fireflies' and glow-worms' unique traits and about their fragile niche in the ecosystem. FEATURES Over 600 color photographs Detailed accounts and anatomical diagrams of 75+ species, as well as aids in distinguishing between similar species A first-of-its-kind flash-pattern chart that folds out on heavy-weight paper • Extensive scientific details written in an understandable and engaging way Colorful, common names—Twilight Bush Baby, Shadow Ghosts, and Snappy Syncs, and more—for easy species identification based on flash patterns Tips on ideal sites and times of year for firefly watching Conservation-
