The World Book Encyclopedia OUP Oxford Weaving together research findings and narratives, Culture of Health in Practice: Innovations in Research, Community Engagement, and Action explores the many opportunities we have as a society to advance a Culture of Health and makes the case that a commitment to health equity is fundamental to bringing those efforts into the mainstream. In this latest

contribution to the Robert Wood Johnson Foundation's Culture of Health Series, contributors describe the challenges and opportunities in rural and urban regions, in neighborhoods and schools, in prisons and workplaces. They explore different populations, including immigrants, minority youth, and individuals with substance use disorders; the risks posed by climate change; the role of the media in shaping the public discourse; and the

innovations being spearheaded by health providers, insurers, and community leaders. Together, the chapters carry the message that while the challenges are daunting, achieving health equity for all lies within reach.

This Is Not an Atlas gathers more than 40 counter-cartographies from all over the world. This collection shows how maps are created and transformed as a part of political struggle, for critical research or in art

and education: from indigenous territories in the Amazon to the anti-eviction movement in San Francisco; from defending commons in Mexico to mapping refugee camps

with balloons in Lebanon; from slums in Nairobi to squats in Berlin; from supporting communities in the Philippines to reporting sexual harassment in Cairo. This

Is Not an Atlas seeks to inspire, to document the underrepresented, and to be a useful companion when becoming a counter-cartographer yourself.
