Williams' Basic Nutrition & Diet Therapy is

a market leader for a reason - it provides

coverage of hot topics, emerging trends,

and cutting edge research, plus all the

essentials for providing the best nutrition

care. You'll love it for the clear,

conversational writing style and vivid

illustrations that guide you from fundamental concepts of nutrition to the application of those concepts in clinical practice. UNIQUE! Content threads share features with other LPN/LVN titles from Elsevier for a consistent learning experience. Case studies in clinical care chapters focus on related patient care problems. Critical thinking questions challenge you to analyze, apply, and combine concepts. Cultural Considerations boxes discuss how a patient's culture can affect nutritional concepts in practice. Clinical Applications and For Further Focus boxes highlight hot topics and analyze concepts and trends in depth. Chapter Challenges use true/false, multiple-choice, and matching questions to test your understanding of chapter content. Key concepts, key terms, and chapter summaries help you study more effectively and master essential content. Diet therapy guidelines include recommendations, restrictions, and sample diets for a number of major clinical conditions. Further Readings and Resources in each chapter provide focused and up-to-date print, multimedia, and online resources to supplement learning.

Useful appendixes include information on cholesterol content, fiber content, cultural and religious dietary patterns, and more. NEW! Completely updated content incorporates Dietary Guidelines 2010 and Healthy People 2020 information throughout the text to ensure you have the most up-to-date content available. NEW! Integrated assets in Pageburst version: ADA Nutrition Care Process Case Studies - Answers Challenge Questions and Answers Critical Thinking Question Answers Growth Charts and Food Composition Table Appendixes 1 & 2 Nutritrac 5.0 2 Practice Tests + Proven Strategies + Online + Video F.A. Davis Building on the strengths of the fourth edition, Basic Nursing: Essentials for Practice is back in a new edition! Thoroughly updated and revised to provide a more focused and engaging presentation, this new edition offers the basic principles, concepts, and skills

needed by nursing students. The five-step nursing process returns to provide a consistent, logical organizational framework, with a clear writing style and numerous learning aids. An increased emphasis on caring, along with new boxes on Focused Client Assessment and Outcome Evaluation, reflect current practice trends. This new edition is better than ever! Five-Step Nursing Process provides a consistent organizational framework. More than 40 nursing skills are presented in a clear, 2-column format with rationales for all steps. Procedural Guidelines boxes provide streamlined step-by-step instructions for performing basic skills. Growth and Development chapter and age-related considerations throughout clinical chapters help prepare students to care for clients of all ages. Sample Nursing Care Plans highlight defining characteristics in assessment data, include client goals and expected outcomes in the planning section, and provide rationales for each nursing intervention. Progressive Case Studies follow the interactions of a client and nurse throughout the chapter to illustrate steps in the nursing process and develop

critical thinking skills. Brief coverage of higher level concepts including research, theory, professional roles, and management, maintains the text's focus on essential, basic content. The narrative style makes the text more engaging and appealing. Focused Client Assessment boxes provide specific guidelines for factors to assess, questions and approaches, and physical assessment. Content on delegation is discussed throughout the narrative and specific guidelines are included for each skill. Skills now include Unexpected Outcomes and Interventions to alert for potential undesirable responses and provide appropriate nursing actions. Caring in Nursing is presented in a new chapter and as a thread throughout the text. Outcome Evaluation are based on the chapter's case study and provide guidelines on how to ask questions and evaluate care based on the answers received. NIC and NOC are discussed in the Nursing Process chapter to provide an overview of these taxonomies encountered in practice. NCLEX-style multiple-choice questions at the end of each chapter help students evaluate learning.
