Setting Up and Running a School Library ABC-CLIO

A must-have guide of professional development resources for library staff at every phase of their career—from those just entering the field, to paraprofessionals building a career trajectory, to seasoned librarians looking to explore additional career options.

- * A career lifecycle approach to building a career in the library and information sciences field
- * Practical guidance and resources for every stage of a career
- * Resource annotations detail the importance of a particular source
- * A comprehensive list of resources for further reading

Collection Management Basics Englewood, Colo. : Libraries Unlimited Technical Services Quarterly declared that the third edition "must now be considered the essential textbook for collection development and management ... the first place to go for reliable and informative advice." For the fourth edition expert instructor and librarian Johnson has revised and freshened this

resource to ensure its timeliness and continued excellence. Each chapter offers complete coverage of one aspect of collection development and management, including numerous suggestions for further reading and narrative case studies exploring the issues. Thorough consideration is given to traditional management topics such as organization of the collection, weeding, staffing, and policymaking; cooperative collection development and management; licenses, negotiation, contracts, maintaining productive relationships with vendors and publishers, and other important purchasing and budgeting topics; important issues such as the ways that changes in information delivery and access technologies continue to reshape the discipline, the evolving needs and expectations of library users, and new roles for subject specialists, all illustrated using updated examples and data; and marketing, liaison activities, and outreach. As a comprehensive introduction for LIS students, a primer for experienced librarians with new collection

development and management responsibilities, and a handy reference resource for practitioners as they go about their day-to-day work, the value and usefulness of this book remain unequaled.

An Introduction ABC-CLIO This volume of collected articles from the archives of School Library Connection provides school librarians and LIS professors with a one-stop source of information for supporting the core library principle of intellectual freedom. School librarians continue to advocate and champion for student privacy and the right to read and have unfettered access to needed information. Updated and current information concerning these issues is critical to school librarians working daily with students, parents, and faculty to manage library programs, services, and print and digital collections. This volume is an invaluable resource as school librarians revisit collection development, scheduling, access and other policies. Library Science professors will find this updated volume useful for information and discussion with students. Drawing on the archives

of School Library Connection, Library Media Connection, and School Library Monthly magazines—and with comprehensive updates throughout—chapters tackle privacy, the right to read, censorship, equal access to information, and other intellectual freedom issues. New laws and legal and ethical opinions continue to appear and help inform the daily response school librarians have to current issues. This volume updates all included articles with current legal thought and opinion. Intellectual freedom expert April Dawkins, PhD and editor, offers practical advice and commentary throughout. Includes up-to-date coverage of a wide range of intellectual freedom topics Looks at current and applicable laws Features important topics for discussion in LIS classes Immediately usable in schools, and for school district staff development on these important and relevant topics

A Guide to Key Literature and Sources ABC-CLIO

E-Books in Academic Libraries: Stepping Up to the Challenge provides readers with a view of the changing and emerging roles of electronic books

in higher education. The three main sections contain contributions by experts in the publisher/vendor arena, as well as by librarians who report on both the challenges of offering and managing e-books and on the issues surrounding patron use of e-books. The case study section offers perspectives from seven different sizes and types of libraries whose librarians describe innovative and thought-provoking projects involving e-books. Read about perspectives on e-books from organizations as diverse as a commercial publisher and an association press. Learn about the viewpoint of a jobber. Find out about the e-book challenges facing librarians, such as the quest to control costs in the patron-driven acquisitions (PDA) model, how to solve the dilemma of resource sharing with e-books, and how to manage PDA in the consortial environment. See what patron use of e-books reveals about reading habits and disciplinary differences. Finally, in the case study section, discover how to promote scholarly e-books, how to manage an e-reader checkout program, and

how one library replaced most of its print collection with e-books. These and other examples illustrate how innovative librarians use e-books to enhance users' experiences with scholarly works.

Library Management ABC-CLIO

The School Library Manager: Surviving and Thriving, 6th Edition ABC-CLIO

LIS Career Sourcebook

Linworth Publishing, Incorporated Addressed to practicing librarians and other information professionals, as well as master's and doctoral students in LIS programs, Basic Research Methods for Librarians, Fifth Edition specifically covers the research methodologies likely to be used by librarians, providing guidance on designing and conducting research and publishing research results. Like its predecessors, this fifth edition is exceptionally comprehensive. Content has been thoroughly updated and sections have been added on social networking and other web-based research methods and techniques. The book emphasizes quantitative research, including survey and experimental studies. It also gives attention to

qualitative research, including historical research. A chapter is devoted to the statistical analysis of research results. Evaluation, writing, and publishing of research reports are considered as well. Coauthored by distinguished researchers in library and information science, the book also includes contributions from experts on qualitative research, domain assumptions of research, and sampling. [A History of ALA Policy on Intellectual Freedom: A Supplement to the Intellectual Freedom Manual, Ninth Edition](#) Libraries Unltd Incorporated
Our digitally rich world changes quickly and contains more information resources than ever before; as a result, school librarians are tasked with the enormous challenge of curating a diverse, high-quality, and up-to-date collection for teachers, students, and administrators to use. This new edition of *The Collection Program in Schools* gives school librarians the tools to develop and maintain a collection in a constantly changing environment, often with reduced budgets; and to ensure

that students can use virtual libraries and have access to all modern media and learning resources. The book logically progresses in its coverage of national and state policy concerns to the process of collection building and maintenance. Topics covered include key education trends affecting collections, such as digital textbooks and other non-print resources, instructional improvement systems, STEM priorities, and open education resources; the use of school libraries as makerspaces; media type considerations for a range of users; Common Core State Standards and Next Generation Science Standards; and the principles of curation: acquisition, description, organization, promotion, evaluation, and maintenance. This guide is ideal for use in many graduate-level school librarian preparation courses, including classes on school library collection development and school library management. [Divided Libraries](#) Rowman & Littlefield Publishers
This very readable text is updated to encompass the new role of school

librarians in managing the digital world in libraries. American Library Association
This resource will be as useful to current school librarians and supervisors, youth librarians in public libraries, and educators as it will to LIS students.

School Library

Management ABC-CLIO

Since its publication in June 1998, *Information Power* has become the most talked about book in the school library world! [Guide to Reference Materials for School Library Media Centers](#) ALA Editions

Now thoroughly revised for today's 21st-century library environment, this title provides a complete update of the classic *Developing Library and Information Center Collections*—the standard text and authority on collection development for all types of libraries and library school students since 1979.

Remodeling Management to Unify Institutions

American Library Association
Diagrams and practical examples from teachers' experiences around the world illustrate the advice given. Shows how to choose books, a room and resources. Explains how to establish a simple

classification and cataloguing system. Shows how to encourage active teacher and student involvement. Explains how to make the most of limited resources. Ideal for teachers and others who are not trained librarians. Fundamentals of Collection Development and Management, Fourth Edition ABC-CLIO

If the heart of the library is its collection, this textbook provides the keys to the heart of your library. Alongside standards of basic principles and processes, you'll find practical guidance on everything from acquisitions to preservation. Managing collections in today's libraries is more complicated and challenging than ever. Electronic formats, new options for collaboration and sharing, and the drive to use data for evaluation purposes are just a few of the changes now driving collection management. This updated edition of a classic text addresses changes in the field and provides a thorough overview of what collection development specialists now need to know to effectively and efficiently manage processes that range from selection and assessment

to sharing resources, handling challenges, weeding, and preservation. Readers will find increased coverage of technical services, intellectual freedom and censorship, and collection policy development, as well as budget development and tracking, joint purchasing, and negotiating with vendors. Updates on e-resources, user needs assessment (including data visualization), and disaster management, along with suggestions for further reading, are also included. Engagingly written and easy to understand, this is a valuable text for students preparing for careers in public, academic, school, and special libraries. It will additionally serve as a training resource and professional refresher for faculty and students with a thorough, up-to-date overview of all aspects of the collection development process. Helps collection development librarians to address new challenges such as online resources, how to use new tools for assessing your library's collection, developing a budget, and negotiating with vendors. Engages readers and is easy to

read, with real-life examples to clarify principles and concepts. May be used as a text for LIS courses on collection development as well as a resource for training and personal or professional enrichment.

Exploring Management, 5th Edition Littleton, Colo. : Libraries Unlimited

Collecting several key documents and policy statements, this supplement to the ninth edition of the Intellectual Freedom Manual traces a history of ALA's commitment to fighting censorship. An introductory essay by Judith Krug and Candace Morgan, updated by OIF Director Barbara Jones, sketches out an overview of ALA policy on intellectual freedom. An important resource, this volume includes documents which discuss such foundational issues as The Library Bill of Rights. Protecting the freedom to read. ALA's Code of Ethics. How to respond to challenges and concerns about library resources. Minors and internet activity. Meeting rooms, bulletin boards, and exhibits. Copyright. Privacy, including the retention of library usage records.

*Intellectual Freedom
Issues in School Libraries*
American Library
Association

This volume emphasizes the changes wrought by technology. Chapters are arranged by type of service - reference services and sources, bibliographic instruction, interlibrary loan, circulation, reserve services, special collections, serials, media services and government documents.

**Building Partnerships
for Learning, Updated
Edition** ABC-CLIO

This title offers pre-service, newly practicing, and seasoned school librarians opportunities for reflection as well as inspiring strategies for enacting four core values of the profession. The school library profession has been in "crisis" for more than a decade. Educational decision-makers have not been made aware of or sold on the core values of school librarianship and its value to students, classroom teachers, administrators, and the entire school community. Budgetary priorities often do not include school librarians, resulting in a lack of funding and the elimination of many positions, which can

cause many school librarians to feel vulnerable and afraid. Guideposts are needed to offer today's school librarians a chance to connect or reconnect with their passion for literacy, learning, and serving that led them to the profession. *Core Values in School Librarianship: Responding with Commitment and Courage* provides pre-service, newly practicing, and seasoned school librarians with opportunities for thoughtful reflection alongside inspiring strategies for gathering courage and enacting four core values of the profession. It is an important and visionary book that all school librarians should read as they develop in their role as leaders in their schools. Guides readers to connect or reconnect with passion and purpose for school librarianship, both of which are essential during times of crisis and change. Addresses the core values of librarianship with examples of how they are enacted in the school library setting. Features diverse voices and experiences related to passion and practice of the core values. Provides opportunities for

reflection to improve practice and strengthen commitment to the work of school librarianship. Benefits library stakeholders.

**Classroom
Management** ABC-CLIO

As a comprehensive introduction for LIS students, a primer for experienced librarians with new collection development and management responsibilities, and a handy reference resource for practitioners as they go about their day-to-day work, the value and usefulness of this book remain unequaled.

Political Advocacy for
School Librarians:
Leveraging Your Influence
ABC-CLIO

This internationally acclaimed text serves as the basic management text in programs of library & information studies throughout the world. It is also used as a ready-reference & for workshop discussions in all types of libraries & information centers. As with previous editions, the authors present the principles of library & information center management in a conceptual framework as it examines the dynamics of organizational missions, goals, policies & programs, & people, as

well as in relation to external forces (e.g., users & funding authorities) that encourage change. This current edition features expanded sections on the change process, strategic planning & management, & managing conflict through Total Quality Management (TQM) in a technology intense environment. Charts, diagrams, & appendixes of library policies, procedures, organograms, & other forms are included.

Collection Management Basics, 7th Edition Purdue University Press
School librarians are prepared to be leaders and can use their strengths to advocate for policy that benefits school libraries. This book will teach you how to engage elected officials to effect change that extends to your library. • Realize how to use your strengths as a librarian to influence issues that matters to you, even if you consider yourself apolitical • Discover the "hidden

rules" of representative democracy • Learn strategies to leverage your institutional knowledge to advocate for effective school libraries at all levels of government
The Collection Program in Schools: Concepts and Practices, 7th Edition McFarland
Lists the best reference materials in the arts and sciences that meet the needs of elementary, secondary, vocational, and junior college students and teachers.
